Nelson,2025-08-05 I thought that this was going to be another of those books puffing up the American side of WWII It most certainly isn t K A Nelson tells an interesting story illuminating a theatre of the North Atlantic campaign that has been comparatively neglected and he tells it well Recommended The Naval Review It is January 1942 Six weeks after the United States entered World War II Imperial Japan is annihilating American forces across

the Far East while the Nazis stand triumphant over much of Europe Adolf Hitler's forces are about to commence an assault along the East Coast of the United States but this Atlantic Pearl Harbor would prove far more devastating than Japan's attack on Hawaii The wolves are closing in and few Americans realize their beaches and coastal cities are about to witness the worst naval defeat in American history The Western Hemisphere holds the key to victory for the beleaguered Allies but only if the vast economic and military resources of North and South America can be carried across the Atlantic by Allied merchant ships These civilian manned cargo vessels are the backbone of the American war economy and the lifeline enabling Britain and the Soviet Union to survive but Hitler's favorite admiral also knows this and he has set in motion a plan of unprecedented boldness Germany's dreaded submarines or U boats are going to the United States The fiery months that followed would pit American servicemen against German U boat sailors in a desperate struggle that stained East Coast waters with oil and blood In the crosshairs of this deadly cat and mouse game was a stalwart contingent of civilian mariners who crewed the tankers and freighters supplying the war against the Axis Powers Thousands of them would perish as hundreds of merchant ships were sunk Every American coastal state became a battlefield in 1942 and the events that transpired off New Jersey illustrate the perils and brutality of this forgotten campaign The seafloor along the Garden State is today strewn with shipwrecks that bear witness to the innumerable ways to die faced by friend and foe alike only miles from the boardwalk Though these seafarers' lives were forfeit the battle they fought would decide the fates of millions

SOARES,2019-01-14 In every country of Europe and America there is a remarkable fraction of the adult population sometimes near 50 per cent whose needs are met with taxpayers money This situation is so common and we are so used to it that nobody dares to propose an alternative On the other hand the State creates unproductive jobs for certain classes of people and makes itself the protector of specific sectors of the economy when companies risk insolvency We are talking about the transfer of wealth from the people who create it to pure consumers of resources The later ones we call free riders This book treats this matter in connection with the electoral process the abusive stretching of well established political concepts the use of pseudoscience and the alliance between free riders and rent seekers For sure it is doubtful that it will be possible to feed such a sizeable inactive population for a long time However the author abstains himself of any proposal for a change His only aim is to explain how we arrived at the present situation and where the foundations of the current equilibrium stay
