## Major Problems In American History Chapter Summary:

**McClellan and the Union High Command, 1861-1863** Jeffrey W. Green, 2017-02-19 With Washington's proximity to the Confederate capital of Richmond Union military operations in the first two years of the Civil War focused mainly on the Eastern Theater where General McClellan commanded the Army of the Potomac. McClellan's On to Richmond battle cry dominated strategic thinking in the high command. When he failed and was sacked by President Lincoln a coterie of senior officers sought his return. This re-examination of the high command and McClellan's war in the East provides a broader understanding of the Union's inability to achieve victory in the first two years and takes the debate about the Union's leadership into new areas.

Rethinking German History (Routledge Revivals) Richard J.

Evans,2015-08-11 In Rethinking German History first published in 1987 Richard J Evans argues for a social historical approach to the German past that pays equal attention to objective social structures and subjective values and experiences If German history has been seen as an exception to the normal development of Western society this is not least because historians have until recently largely failed to look beyond the world of high politics institutions organizations and ideologies to broader historical problems of German society and German mentalities By applying and adapting approaches learned from French and British social history as they have been developed over the last quarter of a century it is possible to achieve a rethinking of German history which does away with many of the textbook myths that have encrusted the historiography of Germany for so long This book will be valuable for students of German history and politics and brings together essays widely used in teaching Its broad coverage of social history will also be useful to all those interested in contemporary historiography or the comparative study of European history
