## Essays Of Schopenhauer:

The Essays of Arthur Schopenhauer; On Human Nature Arthur Schopenhauer,2020-03-06 Excerpt The following essays are drawn from the chapters entitled Zur Ethik and Zur Rechtslehre und Politik which are to be found both in Schopenhauer's Parerga and in his posthumous writings As in my previous volumes so also in this I have omitted a few passages which appeared to me to be either antiquated or no longer of any general interest For convenience sake I have divided the original chapters into sections which I have had to name and I have also had to invent a title which should express their real scope The reader will find that it is not so much Ethics and Politics that are here treated as human nature itself in various aspects

*The Essays of Arthur Schopenhauer - The Art of Literature (illustrated)* Arthur Schopenhauer,2015-06-15 Arthur Schopenhauer 22 February 1788 21 September 1860 was a German philosopher He is best known for his 1818 work The World as Will and Representation in

which he argues that the phenomenal world is driven by a metaphysical will that perpetually and malignantly seeks satiation. He also wrote influentially on aesthetics, ethics, and religion. Transcendental idealism formed the basis for much of his thought, and his atheistic philosophy has been described as an exemplary manifestation of philosophical pessimism. Finding his philosophical conclusions to be compatible with those of much Eastern philosophy, his solutions to the problems of existence and suffering were consequently similar to those of Vedantic and Buddhist thinkers. Schopenhauer's influence has proven profound across various disciplines; those who have cited his influence include Friedrich Nietzsche, Richard Wagner, Leo Tolstoy, Ludwig Wittgenstein, Erwin Schrödinger, Sigmund Freud, Albert Einstein, Otto Rank, Carl Jung, Joseph Campbell, Thomas Mann, and Jorge Luis Borges among others.

**The Essays of Arthur Schopenhauer** Arthur Schopenhauer, 1929 **Essays of Schopenhauer** Arthur Schopenhauer, 2010-06-01. These essays are a valuable criticism of life by a man who had a wide experience of life, a man of the world who possessed an almost inspired faculty of observation. Schopenhauer, of all men, unmistakably observed life at first hand. There is no academic echo in his utterances; he is not one of a school; his voice has no formal intonation; it is deep, full-chested, and rings out its words with all the poignancy of individual emphasis without bluster but with unfailing conviction. He was, for his time and for his country, an adept at literary form, but he used it only as a means.

*Essays of Schopenhauer* Arthur Schopenhauer, 2015-11-20. When Schopenhauer was asked where he wished to be buried, he answered, "Anywhere; they will find me, and the stone that marks his grave at Frankfurt bears merely the inscription: Arthur Schopenhauer, without even the date of his birth or death." Schopenhauer, the pessimist, had a sufficiently optimistic conviction that his message to the world would ultimately be listened to, a conviction that never failed him during a lifetime of disappointments, of neglect in quarters where perhaps he would have most cherished appreciation, a conviction that only showed some signs of being justified a few years before his death. Schopenhauer was no opportunist; he was not even conciliatory; he never hesitated to declare his own faith in himself, in his principles, in his philosophy; he did not ask to be

listened to as a matter of courtesy but as a right a right for which he would struggle for which he fought and which has in the course of time it may be admitted been conceded to him Although everything that Schopenhauer wrote was written more or less as evidence to support his main philosophical thesis his unifying philosophical principle the essays in this volume have an interest if not altogether apart at least of a sufficiently independent interest to enable them to be considered on their own merits without relation to his main idea And in dissociating them if one may do so for a moment their author would have scarcely permitted it one feels that one enters a field of criticism in which opinions can scarcely vary So far as his philosophy is concerned this unanimity does not exist he is one of the best abused amongst philosophers he has many times been explained and condemned exhaustively and no doubt this will be as many times repeated What the trend of his underlying philosophical principal was his metaphysical explanation of the world is indicated in almost all the following essays but chiefly in the Metaphysics of Love to which the reader may be referred These essays are a valuable criticism of life by a man who had a wide experience of life a man of the world who possessed an almost inspired faculty of observation Schopenhauer of all men unmistakably observed life at first hand There is no academic echo in his utterances he is not one of a school his voice has no formal intonation it is deep full chested and rings out its words with all the poignancy of individual emphasis without bluster but with unfailing conviction He was for his time and for his country an adept at literary form but he used it only as a means Complicated as his sentences      *Essays of Arthur Schopenhauer* Arthur Schopenhauer,T. 1788 1860 was a German philosopher best known for his work *The World as Will and Representation*. He responded to and expanded upon Immanuel Kant's philosophy concerning the way in which we experience the world. His critique of Kant, his creative solutions to the problems of human experience, and his explication of the limits of human knowledge are among his most important achievements. His metaphysical theory is the foundation of his influential writings on psychology, aesthetics, ethics, and politics, which influenced Friedrich Nietzsche, Wagner, Ludwig Wittgenstein, Sigmund Freud, and others. He said he was influenced by the Upanishads, Immanuel Kant, and Plato. References to Eastern philosophy and religion appear frequently in his writing. He appreciated the teachings of the Buddha and even called himself a Buddhist. He said that his philosophy could not have been conceived before these teachings were available. He called himself a Kantian. He formulated a pessimistic philosophy that gained importance and support after the failure of the German and Austrian revolutions of 1848.
