Finlayson, 2020-09-30 Something is essential if it is of the utmost importance, basic, indispensable, necessary. This book is just that: essential. Negotiation, in simple terms, is the basic means of getting what you want from others. It is back and forth communication designed to reach an agreement when you and the other party have some interests that are shared and others that are opposed. We are all negotiators. Whether you sometimes disagree with a colleague or spouse, buy a car, lead a project, or work group, you negotiate and need to know how to do it given the specific circumstance and nature of the interactions. While we may negotiate in many forums and have a variety of negotiating experiences, we don't bargain collectively all the time. *Collective Bargaining Preparation Essentials: The Handbook* is about collective bargaining: the negotiation or renegotiation of employees' terms and conditions of employment and alternatives. What emerges from your planning, negotiation, and implementation efforts is a codification of what the union and the employer agree on to regulate their conduct and dealings over a certain period. All based on the parties' choice of alternatives. *Collective Bargaining Preparation Essentials: The Handbook* is a resource. It will broaden your perspective on your union/employer relationship and your bargaining style and provide preparation guidelines and strategies to successfully negotiate a collective agreement.

Learning in Work Raymond Smith, 2018-04-11 This book explores and progresses the concept of negotiation as a means of describing and explaining individuals learning in work It challenges the undertheorised and generic use of the concept in contemporary work learning research where the concept of negotiation is most often deployed as a taken for granted synonym for interaction co participation and collaboration and hence used to unproblematically account for workers learning as engagement in social activity Through a focus on workers personal practice and based on extensive longitudinal empirical research the book advances a conceptual framework The Three Dimensions of Negotiation to propose a more rigorous and work learning specific understanding of the concept of negotiation This framework enables workers personal work practices and their contributions to the personal organisational and occupational changes that evidence learning to be viewed as negotiations enacted and managed within contexts that are in turn sets of premeditated and concurrent negotiations that frame the transformations on and from which on going negotiations of learning and practice ensue The book does not seek to supplant understandings of the rich and valuable concept of negotiation Rather it seeks to develop and promote a more explicit use of the concept as a socio personal learning concept at the same time as it opens alternative perspectives on its deployment as a metaphor for individual s learning in work
