Spy Watching Loch K. Johnson, 2018 All democracies have had to contend with the challenge of tolerating hidden spy services within otherwise relatively transparent governments Democracies pride themselves on privacy and liberty but intelligence organizations have secret budgets gather information surreptitiously around the world

and plan covert action against foreign regimes Sometimes they have even targeted the very citizens they were established to protect as with the COINTELPRO operations in the 1960s and 1970s carried out by the Federal Bureau of Investigation FBI against civil rights and antiwar activists In this sense democracy and intelligence have always been a poor match Yet Americans live in an uncertain and threatening world filled with nuclear warheads chemical and biological weapons and terrorists intent on destruction Without an intelligence apparatus scanning the globe to alert the United States to these threats the planet would be an even more perilous place In *Spy Watching* Loch K Johnson explores the United States travails in its efforts to maintain effective accountability over its spy services Johnson explores the work of the famous Church Committee a Senate panel that investigated America's espionage organizations in 1975 and established new protocol for supervising the Central Intelligence Agency CIA and the nation's other sixteen secret services Johnson explores why partisanship has crept into once neutral intelligence operations the effect of the 9/11 attacks on the expansion of spying and the controversies related to CIA rendition and torture programs He also discusses both the Edward Snowden case and the ongoing investigations into the Russian hack of the 2016 US election Above all *Spy Watching* seeks to find a sensible balance between the twin imperatives in a democracy of liberty and security Johnson draws on scores of interviews with Directors of Central Intelligence and others in America's secret agencies making this a uniquely authoritative account

A Very Principled Boy Mark A. Bradley, 2014-04-29 Duncan Chaplin Lee was a Rhodes Scholar patriot and descendent of one of America's most distinguished families and possibly the best placed mole ever to infiltrate U.S. intelligence operations In A Very Principled Boy intelligence expert and former CIA officer Mark A

Bradley traces the tangled roots of Lee's betrayal and reveals his harrowing struggle to stay one step ahead of America's spy hunters during and after World War II. Exposed to leftist politics while studying at Oxford, Lee became a committed albeit covert member of the Communist Party. After following William Wild Bill Donovan to the newly formed Office of Strategic Services, Lee rose quickly through the ranks of the U.S. intelligence service and just as quickly gained value as a Communist spy. As one of the chief aides to the head of the OSS, Lee was uniquely well placed to pass sensitive information to his Soviet handlers including the likely timeframe of the D-Day invasion and the names of OSS personnel under investigation for suspected communist affiliations. In 1945, one of Lee's former handlers confessed to the FBI and named Lee as a Soviet agent. For the next thirteen years, J. Edgar Hoover would tirelessly but futilely attempt to prove Lee's guilt. Despite being accused of treason in front of the House Un-American Activities Committee, the increasingly paranoid Lee miraculously escaped again and again. In a move to atone for what he had done, Lee later became a Cold Warrior in China, fighting Mao Zedong's communists. He died a free but conflicted man. In *A Very Principled Boy*, Bradley weaves a fast-paced cat and mouse tale of misguided idealism, high treason, and belated redemption. Drawing on Lee's letters and thousands of previously unreleased CIA, FBI, and State Department records, Bradley tells the unlikely story of a spy who chose his conscience over his country and its dark consequences.

This book explores the challenges leaders in intelligence communities face in an increasingly complex security environment and how to develop future leaders to deal with these issues. It provides a grounded theoretical approach to building practitioner and researcher understanding of what individual and organisational factors result in better leadership. Using interviews from former senior intelligence leaders and a survey of 208 current and former intelligence leaders, the work explores the key challenges that leaders will likely face in the twenty-first century and how to address these. It also explores what principles are most likely to be important in developing future leaders of intelligence agencies in the future.
