You know he has a significant life insurance policy that expires at midnight before midnight, you and your family will either have the money you need, or if he dies after midnight, there's nothing you can do.

It's on a cruise when there is an emergency evacuation of the ship. There are not enough lifeboats and they are all overloaded. It can see the water lapping just below the lifeboat's edge - if they are much lower, the boat will start to sink.

The water is rough and waves lap into the boat, but it can see a group of elderly people struggling to stay afloat. They call to him to throw a rope, all they want is to stay in the shelter. It thinks the boat might make it and they are the only ones who can help them.

Claire is the class clown. She has a great sense of humour and you love hanging around her. However, lately her jokes have focused on making fun of other students and teachers. She looks for something different about the way someone looks or acts and uses these things to make unkind jokes. They're starting to make you feel uncomfortable.

Do you say something? What do you do?

Ethical Issues in Cancer Patient Care Peter Angelos,2013-04-17 This book addresses a variety of ethical issues that arise in the care of oncology patients Many volumes have been written on medical ethics in the past 30 years However few have focused on ethical issues specific to the care of cancer patients This book brings together such a focused examination The contributors are experienced clinicians ethicists medical humanists and medical educators The issues raised have direct relevance to the care of oncology patients in treatment as well as research settings The chapters address issues that are central to contemporary medical practice and medical ethics inquiry Any practicing clinician will be well aware of the problems of communication and how uncertainty cross cultural issues and religious influences can impact patient care The limits of care and the role of advance directives and palliative care are common issues that must be addressed in treating patients at the end of life For oncologists and oncology patients participation in clinical trials may be a thorny topic especially when phase I clinical trials are being considered The impact of managed care and reimbursement issues cannot be avoided in the contemporary patient care and similarly cannot

Ethical Issues in Community-based Research with Children and Youth Bonnie J. Ross Leadbeater, Elizabeth Bannister, Cecilia Benoit, Anne Marshall, Mikael Jansson, Ted Riecken, 2006-01-01 Efforts to apply ethical guidelines and regulations to vulnerable populations are often problematic. Consequently, health and social scientists sometimes shy away from the challenges of research, particularly when it means addressing value-laden social problems such as sexuality, drugs, and racism. *Ethical Issues in Community Based Research with Children and Youth* is a collection of essays that describe the uniqueness of community-based research, outlining several of the ethical concerns that it engenders. The contributors examine such issues as the scope of informed consent to multiple stakeholders, determining competence to give consent in marginalized populations, and managing dual roles as participant researchers. The collection suggests that a more collaborative, ongoing, and discursive approach is needed by researchers and by ethical review boards to ensure that research on sensitive social problems with high-risk populations is supported and also conducted with a clear understanding of the highest ethical standards possible.

Ethical Issues in Counselling and Psychotherapy Practice Poornima Bhola, Ahalya Raguram, 2016-10-20 This edited volume comprehensively examines the critical ethical challenges that arise in the practice of counselling and psychotherapy. It translates philosophical positions and professional ethical guidelines in a way that can be applied to practice. The various chapters focus on specific ethical issues that emerge in working with a range of different client groups, for example, children, couples, and families. While some ethical imperatives are common across the board, others could be more closely associated with certain client groups. Practitioners might experience uncertainty in working with vulnerable client groups, for example, lesbian, gay, transgender, intersex, LGBT clients, or persons who report intimate partner violence. Several chapters raise questions, provide information, and additional resources to enhance ethically informed practice. Chapter contributions also highlight the ethical dilemmas that might be unique to certain contexts, for example, private practice, schools, and consultation/liaison settings. This volume also addresses contemporary and relatively less understood playing fields like digital ethics related to therapist/client interface in the internet space and the navigation of

ethical dilemmas in the newly emerging field of employee assistance programmes which address mental health needs in the corporate sector Written by experienced practitioners of psychotherapy and culturally contextualized this is a valuable resource for academics and practitioners interested in psychotherapy and counselling Ethical Issues in E-Business: Models and Frameworks Palmer, Daniel E.,2010-05-31 This book provides a comprehensive overview of the most important ethical issues associated with the expanding world of e business and offers relevant theoretical frameworks to ethical issues in all significant areas of e business Provided by publisher Ethical Issues in the Psychotherapies Martin Lakin,1988-02-11 Mental health professionals face many complex questions in the course of their work with clients and patients Among the most difficult are dilemmas that involve ethical issues This book presents a forthright exploration of these dilemmas and the ethical considerations they raise Drawing on extensive interviews the author identifies common ethical problems that practitioners encounter What happens for example when personal interests intrude into therapy How can the therapist make an accurate assessment of his or her appropriateness as a care provider for a particular patient What about confidentiality How are problematic financial arrangements best addressed The author goes on to show how these dilemmas may be intensified by the unique assumptions of different therapeutic orientations individual group family marital and organizational and how professionals can learn from such experiences to better understand and apply their particular approach This analysis and the words of the therapists themselves provide both a guide to practice and a unique store of experience for the growing number of researchers and students concerned with ethical problems in psychotherapy Case Studies in Ethics and HIV Research Sana Loue,Earl C. Pike,2007-10-05 This important work takes as its subject one of medicine s most pressing arenas of ethical debate There has been a consistent interest in ethical issues arising in the context of HIV research Ongoing international and multi site studies and the continuing search for an HIV vaccine continue to prompt examination of how this research is conducted Also examined are how participants are engaged in the studies and the obligations of the researchers to individual participants and their communities during the course of and following the conclusion of the research Each chapter of this book is authored primarily by one of the editors secondarily by the other and is accompanied by one to two case studies *Practical and Ethical Dilemmas in Researching Sensitive Topics with Populations Considered Vulnerable* Ana Patrícia Hilário,Fábio Rafael Augusto,2020-11-06 This book seeks to support social science researchers who interact with vulnerability and or sensitivity in the context of their research Whilst there has been some important debate about the theoretical methodological and ethical issues of conducting research on sensitive topics and or with vulnerable populations the number of scholarly publications focused solely on these topics is limited and not up to date The book intends to fill this gap by providing various research experiences as well as the elements that characterize them The articles selected for this book intend first and foremost to stimulate reflexivity amongst the use of the concepts of sensitive topics and vulnerable groups and to provide tools that will allow researchers to improve their research practices The book integrates

several articles that explore a wide range of dilemmas that to a certain extent might allow the reader to access the backstage of this type of research. The reader will find here a rich and fruitful space for theoretical and empirical reflection where several social science researchers with different backgrounds share their experiences and research paths in a rigorous and creative way.
