First Encounters Of The Fourth Kind Book:

Close Encounters Of The Fourth Kind C.D.B. Bryan, 2011-11-02 Close Encounters of the Fourth Kind cases in which personal contact between an individual or individuals is initiated by the occupants of the spacecraft. Such contact may involve the transportation of the individual from his or her terrestrial surroundings into the spacecraft where the individual is communicated with and or subjected to an examination before being returned. One might expect that a scientific conference devoted to people who have reported being kidnapped by little green men would be dismissed out of hand. But C D B Bryan the greatly admired journalist and author of *Friendly Fire* did not dismiss it. The conference was to be held at the Massachusetts Institute of Technology and would have as its chairmen a Pulitzer Prize winning Harvard psychiatry professor and a professor of physics from M I T. Bryan attended the conference throughout its five days. He approached the subject with no prior stand no agenda and an open if slightly skeptical mind. As the conference progressed he was astonished by the quality of the stories told by the hundreds of men and women who came forward hesitantly and reluctantly with their utterly amazing and utterly convincing accounts of having been abducted and then examined aboard extraterrestrial spacecraft by spindly limbed telepathic gray creatures with outsized foreheads dominated by huge compelling tear shaped black eyes. What most astonished Bryan were the similarities found again and again in these accounts and the consistency of their details. It is here that the heart of the mystery lies as the Harvard professor John E Mack asked at the conference. If what the abductees are saying isn't happening to them then what is. This question and the possible answers are at the center of this richly explicit serious and riveting book. Bryan recreates the conference. He interviews ufology's most prominent psychiatrists psychologists hypnotherapists researchers physicists physicians and folklorists. He interweaves throughout the testimony of the abductees themselves who tell us their stories in chilling detail. He presents in depth the Close Encounter experiences of two women whose stories he tells on the basis of both their spontaneous recollections of the events and their memories that were retrieved through sessions of hypnosis of which Bryan himself was a witness. Finally Bryan examines the current theories psychological psychiatric medical parapsychological that have been put forward by the unconvinced to explain the abduction phenomenon. Are the abductees suffering from some sort of false memory syndrome a multiple or dissociative personality disorder. Are they fantasy prone. *Close Encounters of the Fourth Kind* is a detailed objective exploration the most concrete to date of one of the enduring and amazing mysteries of our time. It is a book that will equally fascinate believers and nonbelievers.

Close Encounters Warren Agius, 2024-10-29 An investigation into abductions by extra terrestrial beings capturing accounts from the edge of the universe. In recent years sightings of unidentified flying objects have received more traction and public attention than ever before with an increasing dialogue surrounding the UFO phenomenon. However what has received less attention in popular culture and media is the sinister world of alien abductions. Warren Agius trailblazing second title focuses on the many case studies of close encounters with extra terrestrial beings delving deeper into the ways

in which they have been observing and experimenting on human beings for decades Agius work is not indented to convince the sceptical reader of the plausibility of alien encounters Rather through his thorough research and compelling prose Agius presents readers with carefully considered case studies of abductions complete with each individuals background other plausible hypotheses and supporting evidence for each theory allowing the reader to come to their own conclusions about alien abductions The first section of the book looks at close encounters of the third kind which relate to cases where the individual was not abducted but was in close proximity to or witnessed an extra terrestrial entity The second section moves on to explore a number of actual alien abductions The book also includes information on Hynek s UFO classification scale Close Encounters illuminates a complex yet pertinent phenomenon which has spiritual philosophical and existential implications for the human race as a whole Ultimately this book is a thrilling and captivating invitation for readers to consider the infinite universe we inhabit and what it might mean for us to share such a space with other intelligent and conscious lifeforms
