Victorious Jennifer Mejias,2020 One would think that dropping your child off at school would be the safest place your child could ever be besides being at home but when something terrible happens at the school who do you turn to Victorious demonstrates how the Power of God could transform any grave situation into something totally miraculous and even perhaps unexplainable In this true testimonial story 13 year old Jordan Mejias embarks on a journey that would test the faith of even the strongest of Christian believers At the height of his game as a recent All American Football Player everything would drastically change for him on January 12th 2017 when during his off season athletic period a game called King of the Mat would leave him in a nightmare He would experience the worst possible situation anyone could ever face in his entire life Left with a severe concussion that would disable him completely and eventually leave him in a dark place for not days but months at a time the impact of it all would come to effect him physically and emotionally It would result in a decision that would determine whether God s plan for Jordan was to either choose life or death In the end God decided his fate and the transformation that took place afterwards would bring about a fact that God still performs miracles to this day And He performs them Victoriously

Aristotle's Voice Jasper Neel,2013-11-14 In this book Jasper Neel s sure to be controversial resituating of Aristotle centers around three questions that have been constants in his twenty two years of teaching experience What does it mean to teach writing What should one know before teaching writing And if there is such a thing as research in the teaching of writing what is it Believing that all composition teachers are situated politically and socially both as part of the institution in which they teach and as beings with lived histories Neel examines his own life and the life of composition studies as a discipline in the context of Aristotle Neel first situates the Rhetoric as a political document he then situates the Rhetoric in the Aristotelian system and describes how professional discourse came to know itself through Aristotle s way of studying the world finally he examines the operation of the Rhetoric inside itself before arguing the need to turn to Aristotle s notion of sophistry as a way of negating his system By pointing out the connections among Aristotelian rhetoric the contemporary university and the contemporary writing teacher Neel shows that Aristotle s frightening social theories are as alive today as are Aristotelian notions of discourse Neel explains that by their very nature teachers must speak with a professional voice It is through showing how to hear one s professional voice that Neel explores

the notion of professional discourse that originates with Aristotle In maintaining that one must pay a high price in order to speak through Aristotle s theory or to assume the role of professional he argues that no neutral ground exists either for pedagogy or for the analysis of pedagogy Neel concludes this discussion by proposing that Aristotelian sophistry is both an antidote to Aristotelian racism sexism and bigotry and a way of allowing Aristotelian categories of discourse to remain useful Finally as an Aristotelian a teacher and a writer Neel responds both to Aristotle and to professionalism by rethinking the influence of the past and reviving the voice of Aristotelian sophistry **Daisukidayo, Honey-Senpai!** B.
