KAMAE

BASIC POSTURES IN KATORI SHINTO RYU

This publication is dedicated to the study of kamae, the fundamental postures of Tenshin Shoden Katori Shinto Ryu, one of the oldest schools of Japanese swordsmanship still active today.

Not intending to take anything away from other books describing the history and status of Katori Shinto Ryu in Japan, this volume is dedicated to filling an information gap, concerning its technical aspects.

The kata that are practised within the school are nothing more than kamae made dynamic by movements that connect them to each other. For this reason the in-depth study of kamae is of primary importance.

Andrea Re, is 7th Dan - Menkyo Okuden of this school and one of the most active teachers of it. He studied with Goro Hatakeyama sensei, one of the most important figures of reference in the world of Katori Shinto Ryu.

medieval warrior traditions that reflect the social evolutions within those cultures Over the years publishing the Journal of Asian Martial Arts we published articles that presented the main themes found in this unique area of comparative studies The most important of these writings are assembled in this anthology for your convenience Chapters 1 and 2 are by Dr Willy Pieter a leading scholar with a thorough grasp of European and Japanese martial art traditions His first chapter examines the feudal system and how aspects of social organization helped form the warrior ethic resulting in a mix of scientific and intuitive elements In the second chapter Dr Pieter illustrates how the perception of the human body and mind are culturally different in the East and West Westerners have a long tradition of dualism which separates the body and mind while the Eastern approach has been wholistic The author discusses scientific and medical histories for insight particularly Chinese and European influences on Japan In the third chapter John Michael Greer presents the esoteric side of a European sword tradition as found in the writings of Dutch fencing master Gerard Thibault ca 1574 1627 He notes that Asian and Western combat systems have been understood in sharply different ways over the last century or so Asian combatives came to be associated with Eastern spiritual traditions and seemed to be very different than any Western combative system However this short chapter shows that there is actually much in common In the final chapter Matthew Galas compares and contrasts the sword arts in Germany with the classical Japanese martial traditions The period covered by this inquiry reaches from approximately 1350 until 1600 The focus is on general principles and combat philosophy The study reveals that German sword techniques were as effective as their counterparts in feudal Japan The content in this anthology is useful for anyone interested in either or both European and Japanese martial art traditions exemplified during their medieval periods Enjoy reading this special anthology dedicated to two leading warrior traditions **Journal of Asian Martial Arts** ,2007
