Le grand livre de l'histoire des civilisations Éliane Lopez, 2012 *Le grand livre de l'histoire de France expliqué à tous* Divers Auteurs, *Decision and Decision-maker in an Industrial Environment* Lamia Berrah, Vincent Clivillé, 2023-07-26

Decision and Decision maker in an Industrial Environment developed around the observation that two different decision makers faced with the same problem may not make the same decision The book proposes explanations for this ranging from the wholly rational to the irrational and analyzes different factors in decision making such as the intention of the decision maker the environment in which their decision is made or the process leading to decision making While the common belief is that everything in an industrial environment stems from reasoned decisions analysis of common practice shows that this is not always the case This book offers an original perspective by presenting the decision making mechanism from the point of view of the decision maker and their handling of a specific decision making problem To learn more about the decision maker's motivations when faced with these situations the authors provide a review of the history of decisionmaking and the major trends in decision making theory The concepts and methods are presented with illustrations based on the use of an MES an industrial management software package

L'histoire de France, autrement Suzanne Citron, 1992 *La matrice de l'âme : Le siège des antennes psychiques* Sekou Sanogo, 2014-08-05 T00:00:00Z Penser le Cosmos est un acte qui l'introduit dans notre organisme et le vivifie un acte souverain et sublime qui nous projette lentement mais sûrement par des chemins inconnus vers la transparence de la Vérité Une vérité qui fait résonner notre être aux dimensions de son essence spirituelle Il faut y parvenir consciemment et maintenir cette attitude C'est difficile car cela implique l'engagement aux paradoxes qui est le secret du désintéressement spirituel Sous cet angle optique elle permet de toucher ce terrain fondamental de toute existence qui remarque Krishnamurti au-delà de la pensée du temps du moi de toute chose n'est qu'énergie et ondes de forme Aussi David Bohm nous enseigne-t-il que l'assimilation de ce terrain fondamental par la science la matière ne répond pas aux aspects les plus intérieurs de notre vie La science en même temps qu'elle progresse pas de géant ne marque-t-elle pas elle-même ses limites La Vérité met en résonnance les réactions intimes de notre faculté de discernement et de notre conscience avec ses
