This manual has been compiled to provide time frames labor crews and equipment spreads to assist the estimator in  
capsulizing an estimate for the installation of cross country pipelines marshland pipelines nearshore and surf zone pipelines  
submerged pipelines wharfs jetties dock facilities single point morring terminals offshore drilling and production platforms  
and equipment and appurtenances installed thereon The time frames and labor and equipment spreads which appear  
throughout this manual are the result of many time and method studies conducted under varied conditions and at locations  
throughout the world these time frames and labor and equipment spreads reflect a complete unbiased view of all operations
