day young people engage in risky behaviors that affect not only their immediate well being but their long term health and  
safety These well honed essays apply diverse economic analyses to a wide range of unsafe activities including teen drinking  
and driving smoking drug use unprotected sex and criminal activity Economic principles are further applied to mental health  
and performance issues such as teenage depression suicide nutritional disorders and high school dropout rates Together the  
essays yield notable findings price and regulatory incentives are critical determinants of high risk behavior suggesting that  
youths do apply some sort of cost benefit calculation when making decisions the macroeconomic environment in which those  
decisions are made matters greatly and youths who pursue high risk behaviors are significantly more likely to engage in  
similar behaviors as adults This important volume provides both a key data source for public policy makers and a clear
