Sex and Gender Hilary M. Lips, 2020-04-10 Are sex and gender really two different things How malleable is gender identity Do both gender and sex have to be conceptualized as binaries as having two distinct but complementary categories Should we emphasize gender differences or is that the wrong question When should we call a gender difference small Are women really nonaggressive or does that label stem from stereotyping How does subtle or modern sexism work on its targets Scholarship on these and other gender related questions has exploded in recent years Hilary Lips synthesizes that research for students in an accessible and readable way Concepts on sex and gender are presented with the social context in which they were developed As in previous editions Lips takes a multicultural approach discussing the gender experiences of people from a wide range of races cultures socioeconomic statuses and gender and sexual identities She emphasizes empirical research but takes a critical approach to that research

If Einstein Ran the Schools Thomas Armstrong Ph.D., 2019-10-11 Many world class thinkers and creators

have been concerned about the state of education in the United States Discover their thoughts on how children really learn and what teachers must do to optimally tap children s latent abilities During the last three decades education reformers have pushed standardized testing and policies like No Child Left Behind and Common Core to improve test scores and proficiency in basic skills However during this period that author Thomas Armstrong calls the miseducation of America a number of troubling trends have surfaced including a decrease in creative thinking scores among children in kindergarten through third grade Rather than focus on what s wrong with the education system that has produced these outcomes Armstrong lays out what creative thinkers know about how children should be educated In an extended thought experiment he asks what would happen if we turned the reins of educational policy over not to the politicians and educational bureaucrats but to eminent thinkers and creators like Albert Einstein Pablo Picasso Martin Luther King Jr Rachel Carson Doris Lessing Jane Goodall and other seminal culture builders What might they say about the best way to educate a child If Einstein Ran the Schools suggests that the answers to this intriguing question should guide future efforts to reform our nation s schools *The Emergence and Development of Scientific Thinking during the Early Years: Basic Processes and Supportive Contexts* Ageliki Nicolopoulou, Amanda C.
