

Introduction to APA (6th ed.)

DIRECT – Within the text of your paper

According to Weber (2014), how students spend discretionary income is of particular interest to “advertisers and corporations since spending patterns in youth often predict adult behavior” (p. 65), and...

The research found that the training built “sequentially and developmentally” (Jones & Ifill, 2010, Conclusions section, para. 6).

Yi (2004) stated that the “IL Model needed to be implemented” (p. 34).

Giuliano,Jeanine L. M. Skorinko,Marianne Fallon,2019-11-20 Although many articles and books have been written about conducting research with undergraduates there is a dearth of research on the process of publishing with undergraduates Thus in this research topic we assembled a collection of 43 articles from 98 researchers worldwide who are passionate about and have had success in publishing high quality peer reviewed journal articles with undergraduates The diverse articles represent a wide range of practices to help

researchers publish with undergraduates including structuring the curriculum to promote undergraduate research and publication optimizing research experiences for undergraduates training students in implementing advanced techniques accessing special populations or conducting research in off campus settings addressing institutional and career challenges for faculty and increasing inclusion and diversity Each article provides a unique and diverse perspective that nevertheless resonates across contexts and situations We hope that the ideas models techniques and practices in these articles will motivate and inspire readers to begin continue or rethink how they engage undergraduates in publishable research we also hope to stimulate empirical and quantitative research on the effectiveness of these ideas models techniques and practices

Nursing Education Barbara Ann Moyer, Ruth A Wittman-Price, 2007-08-10 Whether you are new to teaching or an experienced educator looking for innovative techniques this new resource offers a wealth of theoretical knowledge and practical guidance from a who's who of nursing education leaders From foundational concepts curriculum development and instructional principles and methods through intervention and evaluation methods for didactic and clinical settings to technology and visions for nursing education's future every aspect of teaching is covered in step by step detail

Research Methods in Applied Settings Jeffrey A. Gliner, George Arthur Morgan, 2000 The authors of this unique text found that while most students can crunch the numbers quite easily and accurately with a calculator or computer many have trouble seeing the big picture or seeing how research questions and design influence data analysis As a result the authors developed a semantically consistent framework that integrates traditional research approaches experimental quasi experimental comparative into three basic kinds of research questions difference associational and descriptive which in turn lead to three kinds or groups of statistics with the same names This text helps students become good consumers of research by demonstrating how to analyze and evaluate research articles offers a number of summarizing diagrams and tables that clarify confusing or difficult to learn topics points out the value of qualitative research and how it should lead quantitative researchers to be more flexible divides all quantitative research questions into five logically consistent categories that help students select appropriate statistics and understand their cause and effect and classifies design into three major types between groups within subjects and mixed groups and shows that although these three types use the same general type of statistics e.g ANOVA the specific statistics in between groups design are different from those in within subjects and mixed groups
