## EMC 110 with ramp comfort

Electric pedestrian stacker (1,000 kg)

The EMC 110 electric pedestrian stacker with ramp comfort feature combines performance efficiency, user friendliness and operator safety. It offers a wide range of options for almost all applications. For example: Sorting goods in racking or feeding them onto a machine. The goods are simply raised to the required picking height and then deposited or removed from the pallet without straining the operator's back.

Ergonomic and technical advantages make the EMC especially easy to handle:

- The long tiller requires little steering effort and increases safety.

- The precise lowering function (optional) ensures gentle depositing of especially delicate materials in the racking or on the floor.
- The ramp comfort feature activates a simple support arm lift. This increases the ground clearance significantly - in particular around the front support arm. The advantage: Easy crossing of thresholds, uneven surfaces or small ramps without grounding.

All travel and lift functions can be controlled effortlessly from the multifunctional tiller arm. The crawl speed button allows the EMC to operate even in very

confined spaces with the tiller upright. The EMC also offers impressive features for easy power management: The maintenance-free 70-Ah block batteries can be recharged simply by connecting the built-in charger to any standard 240 volt mains socket. The battery discharge indicator continually displays the battery charge status. The innovative 3-phase AC drive motor provides outstanding performance for this truck category, providing ideal conditions for efficient and economic operation.
