Try to Love the Questions Lara Schwartz, 2024-04-02 Among the most common challenges from faculty in higher education today is how to navigate our politically charged culture Most books on campus discussion address rights e.g. free speech or the failures of one side to engage with opposing arguments and in reasonable debate e.g. due to political silos and social bubbles or extreme polarization but there is no real guidance that teaches students and instructors how to actually engage in productive civil dialogue and inquiry Try to Love the Questions is a guide to civil discourse that offers a framework for understanding and practicing dialogue across difference in and out of the classroom It explores the challenges facing college students as they prepare to listen speak and learn in a college community It maps a path through the intersection of free speech and inclusion viewing free inquiry and expression as engines of social progress and scholarship while demonstrating how inclusive respectful communication is a skill not a limitation on freedom Schwartz articulates a vision for civil discourse in the classroom on campus and beyond that centers on productive conversations and a mindset of inquiry that embraces uncertainty and explores the beauty of questions which form the core of the college experience Schwartz develops 5 key ideas to serve this purpose which are 1 learning to love questions while seeking answers with integrity 2 understanding the rules and norms that apply to conversations 3 listening and reading with a mindset of generosity and grace 4 communicating to be understood and 5 engaging in self reflection This book is structured as a handbook for helping students teachers and scholars to understand that their role in college is to actively engage both appealing and not so appealing ideas to learn how to love the questions raised by other students and faculty and to participate in an exchange that is respectful and productive Each chapter includes discussion questions and writing exercises

Cinema and Secularism Mark Cauchi, 2023-12-14 Cinema and Secularism is the first collection to make the relationship between cinema and secularism thematic utilizing a number of different methodological approaches to examine their identification and differentiation across film theory film aesthetics film history and throughout global cinema

The emergence of moving images and the history of cinema historically coincide with the emergence of secularism as a concept and discourse. More than historically coinciding, however, cinema and secularism would seem to have and many contemporary theorists and critics seem to assume a more intrinsic almost ontological connection to each other. While early film theorists and critics explicitly addressed questions about secularism, religion, and cinema, once the study of film was professionalized and secularized in the Western academy in both film studies and religious studies, explicit and critical attention to the relationship between cinema and secularism rapidly declined. Indeed, if one canvases film scholarship today, one will find barely any works dedicated to thinking critically about the relationship between cinema and secularism. Extending the recent secular turn in the humanities and social sciences, *Cinema and Secularism* provokes critical reflection on its titular concepts. Making contributions to theory, philosophy, criticism, and history, the chapters in this pioneering volume collectively interrogate the assumption that cinema is secular, how secularism is conceived and related to cinema differently in different film cultures, and whether the world is disenchanted or enchanted in cinema. Coming from intellectually diverse backgrounds in film studies, religious studies, and philosophy, the interdisciplinary contributors to this book cover films and traditions of thought from America, Europe, Africa, the Middle East, South Asia, and East Asia. In these ways, *Cinema and Secularism* opens new areas of inquiry in the study of film and contributes to the ongoing interrogation of secularism more broadly.

The Cutting Season M. W. Craven, 2022-04-14 Poe's just hanging around on a Saturday afternoon. Dangling from a hook in a meat packing plant isn't how Detective Sergeant Washington Poe wants to spend his weekend. He's been punched and kicked and threatened, and when a contract killer arrives, it seems things are about to go from bad to worse. He goes by the name of the Pale Man, and he and his straight edged razor have been feared all over London for twenty years. But Poe knows two things: the Pale Man doesn't. Although it might seem like a hopeless situation, Poe has planned to be here all along. More importantly, a nerdy computer whizz kid called Tilly Bradshaw is watching his back. And now things are about to get interesting. _____ This is a short story, not a full length novel. _____ Praise for M. W. Craven: I've been following M. W. Craven's Poe/Tilly series.
