Reigeluth, M. David Merrill, 1984-09-04 **Instructional Models in Computer-Based Learning Environments** Sanne Dijkstra, Hein P.M. Krammer, Jeroen J.G. van Merriënboer, 2013-11-11 In the last decade there have been rapid developments in the field of computer based learning environments A whole new generation of computer based learning environments has appeared requiring new approaches to design and development One main feature of current systems is that they distinguish different knowledge bases that are assumed to be necessary to support learning processes Current computer based learning environments often require explicit representations of large bodies of knowledge including knowledge of instruction This book focuses on instructional models as explicit potentially implementable representations of knowledge concerning one or more aspects of instruction The book has three parts relating to different aspects of the knowledge that should be made explicit in instructional models knowledge of instructional planning knowledge of instructional strategies and knowledge of

instructional control The book is based on a NATO Advanced Research Workshop held at the University of Twente The Netherlands in July 1991 *The Mekong* Ian Charles Campbell, 2009-11-20 The Mekong is the most controversial river in Southeast Asia and increasingly the focus of international attention It flows through 6 countries China Myanmar Laos Thailand Cambodia and Viet Nam The 4 downstream countries have formed the Mekong River Commission to promote sustainable development of the river and many of their people depend on it for their subsistence it has possible the largest freshwater fishery in the world and the Mekong waters support rice agriculture in the delta in Viet Nam which produces about 40% of that country s food as well as in Cambodia Laos and Thailand China is now building the first large mainstream dam on the river and has proposals for several more These dams are likely to affect the downstream countries Several of the downstream countries also have plans for large scale hydropower and irrigation development which could also impact the river This book will provide a solid overview of the biophysical environment of the Mekong together with a discussion of the possible impacts biophysical economic and social of some possible development scenarios It is intended to provide a technical basis which can inform the growing political and conservation debate about the future of the Mekong River and those who depend on it It is aimed at river ecologists geographers environmentalists and development specialists both in the basin and especially outside for whom access to this material is most difficult This book will be the first comprehensive treatment of the Mekong system The first comprehensive overview of all aspects of the Mekong River system Deals with a regionally critical ecosystem and one under threat The Mekong supports the world s largest freshwater fishery and provides water underpinning a major regional rice paddy system Presents the authoritative findings of the Mekong River Commission s research for a wider audience for the first time outside of limited distribution reports Administration & Management, 1981 **Cost-Benefit Studies of Natural Resource Management in Southeast Asia** David James, Herminia A. Francisco, 2015-03-19 This book applies cost benefit analysis techniques in the management of environment and natural resources in developing countries of the Southeast Asian region and presents a compendium of studies conducted by researchers supported by the Economy and Environment Program for Southeast Asia EEPSEA It emphasizes the close relationship between the environment and natural resources and economic development in such countries addressing a wide range of problems that can be understood using economic evaluation techniques General guidelines for conducting economic appraisals are provided with the case studies illustrating how they can be applied in a developing country context Cost Benefit Analysis Application in Environmental and Natural Resource Management in Southeast Asia serves as essential reading for teachers researchers students and practitioners in environmental and natural resource economics economic development and key issues facing policymakers in the Southeast Asian region **Government Reports Annual Index**, 1981 Sections 1 2 Keyword Index Section 3 Personal author index Section 4 Corporate author index Section 5 Contract grant number index NTIS order report number index 1 E Section 6 NTIS order report number index F Z Hubs of Illicit Trade in

the Global Economy Yulia Krylova, 2024-09-30 This book meticulously examines how centers of illicit trade pose myriad threats to global security and sustainable development The exponential growth of illicit trade resulting in annual losses amounting to trillions of dollars for the global economy is increasingly concentrated within specific geographic areas These locales serve as safe havens for smugglers and their accomplices fostering a criminal ecosystem that facilitates the convergence of various criminal activities The book underscores the detrimental impact of poorly regulated international free trade zones which prioritize expediency over security thereby allowing illicit trade to flourish in regions characterized by opaque governance and lax regulatory oversight It comprehensively explores the spectrum of illicit trade present in notorious hubs such as the Argentina Brazil Paraguay Tri Border Area Dubai Panama Belize Guatemala and Ukraine Emphasizing the phenomenon of crime convergence associated with these hubs the book offers actionable recommendations for disrupting their interconnected illicit supply chains infrastructures and networks By addressing this interconnectedness the book fills a critical void in understanding how vulnerabilities within the global economy fuel the creation of illicit trade hubs It will be of great value to researchers in the fields of trade economics criminology and international development It will also be an excellent resource for government agencies policymakers and private sector managers in those industries most affected by the growing problem of illicit trade
