Orsino is a fascinating and endearing character in that he has so many deep, vulnerable, and tender thoughts but finds it difficult to communicate with those around him. In these exercises, students are asked to analyze the difference between what a character thinks, says, and does, and discuss the relationship among characters within the novel.

This question asks students to analyze character relationships in graphic form. Use of google documents is helpful and students can easily learn on their feet with this.

The difference between what Oskar thinks, says, and does is head-breaking at times, though it can be easy to miss. In this exercise, students slowdown a bit, and select a situation in which Oskar thinks one thing, says another, and does something different. Students can follow the instructions below:

1. Make a copy of this worksheet for yourself and add it to your drive.
2. Identify a situation in your novel in which your character seems to be thinking one thing, saying another thing, and doing something else. Summarize the situation and provide a page number in the **red box** in the upper right-hand side of the drawing.
3. In the **green speech bubble**, quote your character. Type directly from your novel and say what your character said in this situation.
4. In the **blue thought bubble**, describe what your character was thinking at this time. If your story is told from your character's perspective, you may quote the text. You may, however, have to infer what the character was thinking, and that's okay.
5. In the **yellow action burst**, describe what the character did. Again, you may quote the text directly or sum it up.
6. Finally in the **purple box**, explore the difference between what the character says, thinks, and does. What does this say about the character's values, attitudes, or beliefs? Do these beliefs change or stay the same throughout the novel? Explain. Create the text of the question itself, and replace it with your paragraph response (4-5 sentences).
