The Quarterly Army List Great Britain. War Office,1920 **2012 GCSE English results** Great Britain: Parliament: House of Commons: Education Committee,2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review This report sets out the background to these events and identifies lessons to be learned The problems with GCSE English can be traced back to the 2007 09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual Further difficulties arose because of pressures from the school accountability system The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding The current status of Ofqual as an independent regulator accountable to Parliament is the right one However the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place The Committee is also concerned that there is a rush towards separate exam systems for England Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do

performance during the 2023 agricultural season estimated the aggregate national cereal production and assessed the overall food security situation Author Where access in some areas was too dangerous due to high levels of insecurity telephone interviews with key informants were carried out to obtain information about crop performance Author After the signature of the Revitalized Agreement on the Resolution of the Conflict in South Sudan in September 2018 there has been a significant number of returns of displaced farming households which contributed to the production increases Author Therefore the cessation of all hostilities and the implementation of the agreement is the primary recommendation to ensure and sustain progress in terms of agricultural activities to improve the country s food security situation Author While recognizing the complexity of the reconciliation and peace building process the following recommendations are made on the basis that the national peace deal continues to hold for a better future of the people of South Sudan Author **Catalog of Copyright Entries.
