Geomorphology ,2013-02-27 The changing focus and approach of geomorphic research suggests that the time is opportune

for a summary of the state of discipline The number of peer reviewed papers published in geomorphic journals has grown

steadily for more than two decades and more importantly the diversity of authors with respect to geographic location and

disciplinary background geography geology ecology civil engineering computer science geographic information science and

others has expanded dramatically As more good minds are drawn to geomorphology and the breadth of the peer reviewed

literature grows an effective summary of contemporary geomorphic knowledge becomes increasingly difficult The fourteen

volumes of this Treatise on Geomorphology will provide an important reference for users from undergraduate students

looking for term paper topics to graduate students starting a literature review for their thesis work and professionals seeking

a concise summary of a particular topic Information on the historical development of diverse topics within geomorphology

provides context for ongoing research discussion of research strategies equipment and field methods laboratory experiments

and numerical simulations reflect the multiple approaches to understanding Earth s surfaces and summaries of outstanding

research questions highlight future challenges and suggest productive new avenues for research Our future ability to adapt

to geomorphic changes in the critical zone very much hinges upon how well landform scientists comprehend the dynamics of

Earth s diverse surfaces This Treatise on Geomorphology provides a useful synthesis of the state of the discipline as well as

highlighting productive research directions that Educators and students researchers will find useful Geomorphology has

advanced greatly in the last 10 years to become a very interdisciplinary field Undergraduate students looking for term paper

topics to graduate students starting a literature review for their thesis work and professionals seeking a concise summary of

a particular topic will find the answers they need in this broad reference work which has been designed and written to

accommodate their diverse backgrounds and levels of understanding Editor in Chief Prof J F Shroder of the University of Nebraska at Omaha is past president of the QG G section of the Geological Society of America and present Trustee of the GSA Foundation while being well respected in the geomorphology research community and having won numerous awards in the field A host of noted international geomorphologists have contributed state of the art chapters to the work Readers can be guaranteed that every chapter in this extensive work has been critically reviewed for consistency and accuracy by the World expert Volume Editors and by the Editor in Chief himself No other reference work exists in the area of Geomorphology that offers the breadth and depth of information contained in this 14 volume masterpiece From the foundations and history of geomorphology through to geomorphological innovations and computer modelling and the past and future states of landform science no stone has been left unturned Catalog Southwestern Indian Polytechnic Institute, **Resources in Education** ,1993 Journal of the American Geographical Society of New York ,1896
