He evokes the profound intellectual impact the infinite has exercised on the human mind from the horror infiniti of the Greeks to the works of M. C. Escher from the ornamental designs of the Moslems to the sage Giordano Bruno whose belief in an infinite universe led to his death at the hands of the Inquisition. Maor explores the idea of infinity in mathematics and in art and argues that this is the point of contact between the two best exemplified by the work of the Dutch artist M. C.
