Federal Register, 2014 **The Palgrave Handbook of the European Administrative System** M. Bauer, J. Trondal, 2015-01-28 Drawing on research from the administrative sciences and using organizational institutional and decision making theories this volume examines the emerging bureaucratic framework of the EU and highlights that analyzing the patterns and dynamics of the EU's administrative capacities is essential to understand how it shapes European public policy

Region-Making and Cross-Border Cooperation Elisabetta Nadalutti, Otto Kallscheuer, 2017-12-15 This book explores the nature of regions and how they function particularly at the local and micro level Whilst recent years have seen a resurgence in debates around the roles which regions can play in development the focus has tended to be on macro regional institutions such as the EU ASEAN ECOWAS or MERCOSUR In contrast this book offers a nuanced analysis of the important field of sub regionalism and sub national cross border cooperation Region Making and Cross Border Cooperation takes a fresh look at both theoretical and empirical approaches to region making through cooperation activities at the micro level across national borders in Europe Southeast Asia Latin America Africa and the Middle East The book aims to explore the role that institutional dynamics play at the micro level in shaping local and global ties investigate what the formal and informal integration factors are that bolster

regionalism and regionalization processes and to clarify to what extent and under what conditions cooperation at the micro level can be instrumental to solving common problems Scholars and students within politics sociology geography and economics would find this book an important guide to regionalism at a micro local level perspective

The New Normal Amitai Etzioni, 2014-11-05 Amitai Etzioni argues that societies must find a way to balance individual rights and the common good This point of balance may change as new technologies develop the natural and international environments change and new social forces arise Some believe the United States may be unduly shortchanging individual rights that need to be better protected Specifically should the press be granted more protection Or should its ability to publish state secrets be limited Should surveillance of Americans and others be curtailed Should American terrorists be treated differently from others How one answers these questions Etzioni shows invites a larger fundamental question Where is the proper point of balance between rights and security Etzioni implements the social philosophy liberal communitarianism Its key assumptions are that neither individual rights nor the common good should be privileged that both are core values and that a balance is necessary between them Etzioni argues that we need to find a new balance between our desire for more goods services and affluence particularly because economic growth may continue to be slow and jobs anemic The key question is what makes a good life especially for those whose basic needs are sated

Justice Brennan Seth Stern, Stephen Wermiel, 2013-02-27 In this sweeping and revealing insider study Seth Stern and Stephen Wermiel shine a bright light on the life career and thought of William Brennan 1906-1997 widely considered the Supreme Court's most influential twentieth century justice as well as its greatest liberal and preeminent strategist Stern and Wermiel make available for the first time a striking new view of Brennan based on what Jeffrey Toobin has called a coveted set of documents Justice Brennan's very personal case histories of the major battles that confronted the Supreme Court during the past half century Roe v Wade affirmative action the death penalty obscenity law and the constitutional right to privacy are among the many controversial and hotly contested big picture issues covered in the Brennan annals But they also provide more intimate glimpses of Brennan's surprising refusal to hire female clerks even as he wrote groundbreaking opinions relating to women's rights the complex tension between his commitment to law and his Catholic beliefs and new details on his unprecedented working relationship with Chief Justice Earl Warren Drawing upon Wermiel's rare access to the Brennan case histories half of which will not be released to the public until 2017 and his more than sixty hours of one on one interviews with Justice Brennan himself the authors have crafted a compelling portrait of a judicial giant filled with details and insights that will

further cement Brennan's reputation as an epic playmaker during the Court's most liberal era *Crashed* Adam Tooze, 2018-08-07 WINNER OF THE LIONEL GELBER PRIZE A NEW YORK TIMES NOTABLE BOOK OF 2018 ONE OF THE ECONOMIST'S BOOKS OF THE YEAR A NEW YORK TIMES CRITICS TOP BOOK An intelligent explanation of the mechanisms that produced the crisis and the response to it One of the great strengths of Tooze's book is to demonstrate the deeply intertwined nature of the European and American financial systems The New York Times Book Review From the prizewinning economic historian and author of *Shutdown* and *The Deluge* an eye opening reinterpretation of the 2008 economic crisis and its ten year aftermath as a global event that directly led to the shockwaves being felt around the world today We live in a world where dramatic shifts in the domestic and global economy command the headlines from rollbacks in US banking regulations to tariffs that may ignite international trade wars But current events have deep roots and the key to navigating today's roiling policies lies in the events that started it all the 2008 economic crisis and its aftermath Despite initial attempts to downplay the crisis as a local incident what happened on Wall Street beginning in 2008 was in fact a dramatic caesura of global significance that spiraled around the world from the financial markets of the UK and Europe to the factories and dockyards of Asia the Middle East and Latin America forcing a rearrangement of global governance With a historian's eye for detail connection and consequence Adam Tooze brings the story right up to today's negotiations actions and threats a much needed perspective on a global catastrophe and its long term consequences *Warbird Factory* John M. Fredrickson, 2015-11-02 *Warbird Factory* tells the American Aviation Inc's WWII war effort story through over 200 archival photographs directly from the NAA Boeing archive **Emissions Trading Schemes** Sanja Bogojevic, 2013-07-04 Over the last four decades emissions trading has enjoyed a high profile in environmental law scholarship and in environmental law and policy Much of the discussion is promotional preferring emissions trading above other regulatory strategies without however engaging with legal complexities embedded in conceptualising scrutinising and managing emissions trading regimes The combined effect of these debates is to create a perception that emissions trading is a straightforward regulatory strategy imposable across various jurisdictions and environmental settings This book shows that this view is problematic for at least two reasons First emissions trading responds to distinct environmental and non environmental goals including creating profit centres substituting bureaucratic control of resources and ensuring regulatory compliance This is important as the particular purpose entrusted to a given emissions trading regime has as its corollary a particular governance structure according to which the regime may be constructed and managed and which trusts the emissions market the state and rights in emissions allowances with distinct roles Second the governance structures of emissions trading regimes are culture specific which is a significant reminder of the importance of law in understanding not only how emissions trading schemes function but also what meaning is given to them as regulatory strategies This is shown by deconstructing emissions trading discourses that is by inquiring into the assumptions about emissions trading as featuring in emissions trading scholarship and in debates

involving law and policymakers and the judiciary at the EU level Ultimately this book makes a strong argument for reconfiguring the common understanding of emissions trading schemes as regulatory strategies and sets out a framework for analysis to sustain that reconfiguration Comparative Institutional Analysis Masahiko Aoki, 2013-11-29 This volume collects 22 articles by Masahiko Aoki selected from writings published over the course of his 45 year academic career These fascinating essays cover a range of issues including mechanism design comparative governance corporate governan

sixties television called a vast wasteland by the FCC president in the early sixties continue to dominate our perceptions of the era and cloud popular understanding of the relationship between pop culture and larger social forces Opposed to these conceptions *The Revolution Wasn't Televised* explores the ways in which prime time television was centrally involved in the social conflicts of the 1960s It was then that television became a ubiquitous element in American homes The contributors in this volume argue that due to TV's constant presence in everyday life it became the object of intense debates over childraising education racism gender technology politics violence and Vietnam These essays explore the minutia of TV in relation to the macro structure of sixties politics and society attempting to understand the struggles that took place over representation the nation's most popular communications media during the 1960s
