

The Battle of Culloden has passed, and against all odds, King Charles III sits on Scotland's throne. But the shadow of war looms large as King George II, driven by vengeance for his fallen son, Prince William, Duke of Cumberland, vows to crush Scotland and see King Charles III pay the ultimate price. An invasion is inevitable — the only question is when.

As Scotland braces for this onslaught, Major David MacAllister, Captain Francis MacAllister, and Surgeon Major Fox Williams face a daunting task: forging a modern military from the remnants of an 18th-century kingdom. In the face of ignorance, battleship clout and army intrigues and connivances, striving to meet the insatiable demands of a rapidly growing army. The soldiers, armed with 18th-century knowledge, are pitted to combatize Scotland's defenses, but time is their enemy. Will they muster enough strength to stand against the overwhelming force that will soon bear down upon them?

As the kingdom consolidates its power, whispers of treachery arise through the corridors of power. The English army of Scotland is tested, and questions arise: Can a nation divided by history truly stand united? Who is Lord John Stuart, really, and what secrets does he harbor? Who is the enigmatic Captain, and what role does he play in the unfolding drama? And what of "Black" Benjamin MacAllister, the ruthless figure used by King George III—what dark purpose does he serve in Scotland's fate?

With the future of Scotland hanging by a thread, all roads lead to Falkirk. Here, where Scotland once lost her freedom to King Edward I, the nation will rise again—or be crushed under the weight of history. A Clash of Kings is upon them, and only time will reveal if Scotland's cause for independence was worth it.
