Geography and National Identity David Hooson, 1994-10-20 This volume of especially commissioned essays explores the geography of and the role of geography in national and proto national identity Place and national identity are bound together Attachment to the one is almost always inseparable from the sense of the other Yet as this volume shows the articulated self conscious linking of place and identity is by and large a modern phenomenon that took root in nineteenth century Europe The formation of supranational states and the much vaunted globalization of culture led many to believe there would be a progressive dilution of national identities and a growing agglomeration of places and nations into larger

state units Precisely the reverse has taken place This book explores the connections between identity and homeland showing how a place may be perceived as archetypal endowed with love and celebrated in music and poetry yet be a pretext for violence and war It examines the evolution of ideas about identity and their manifestations in a wide variety of settings from the former Soviet Union to the island states of the South Pacific

Lifestyle and Medicine in the Enlightenment James Kennaway,Rina Knoeff,2020-03-09 The biggest challenges in public health today are often related to attitudes diet and exercise In many ways this marks a return to the state of medicine in the eighteenth century when ideals of healthy living were a much more central part of the European consciousness than they have become since the advent of modern clinical medicine Enlightenment advice on healthy lifestyle was often still discussed in terms of the six non naturals airs and places food and drink exercise excretion and retention and sleep and emotions This volume examines what it meant to live healthily in the Enlightenment in the context of those non naturals showing both the profound continuities from Antiquity and the impact of newer conceptions of the body Chapter 8 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <http://www.taylorfrancis.com/books/e/9780429465642>
