Richards,2024-05-31 All art should become science and all science art poetry and philosophy should be made one Friedrich Schlegel s words perfectly capture the project of the German Romantics who believed that the aesthetic approaches of art and literature could reveal patterns and meaning in nature that couldn t be uncovered through rationalistic philosophy and science alone In this wide ranging work Robert J Richards shows how the Romantic conception of the world influenced and was influenced by both the lives of the people who held it and the development of nineteenth century science Integrating Romantic literature science and philosophy with an intimate knowledge of the individuals involved from Goethe and the brothers Schlegel to Humboldt and Friedrich and Caroline Schelling Richards demonstrates how their tempestuous lives shaped their ideas as profoundly as their intellectual and cultural heritage He focuses especially on how Romantic concepts of the self as well as aesthetic and moral considerations all tempered by personal relationships altered scientific representations of nature Although historians have long considered Romanticism at best a minor tributary to scientific thought Richards moves it to the center of the main currents of nineteenth century biology culminating in the conception of

nature that underlies Darwin's evolutionary theory Uniting the personal and poetic aspects of philosophy and science in a way that the German Romantics themselves would have honored *The Romantic Conception of Life* alters how we look at Romanticism and nineteenth century biology

English Learners' Access to Postsecondary Education Yasuko Kanno, 2021-09-09 Why does a public high school despite having resources and educators with good intentions end up graduating English learners ELs without preparing them for college and career This book answers this question through a longitudinal ethnographic case study of a diverse high school in Pennsylvania The author takes the reader on a journey with seven EL students through their last two years of high school exploring how and why none of them reached the postsecondary destinations they originally aspired to This book provides a sobering look into the systemic undereducation of high school ELs and the role of high schools in limiting their postsecondary options
