Randomized Control Trials in the Field of Development Florent Bédécarrats, Isabelle Guérin, François Roubaud, 2020-09-17 In October 2019 Abhijit Banerjee Esther Duflo and Michael Kremer jointly won the 51st Sveriges Riksbank Prize in Economic Sciences in Memory of Alfred Nobel for their experimental approach to alleviating global poverty But what is the exact scope of their experimental method known as randomized control trials RCTs Which sorts of questions are RCTs able to address and which do they fail to answer The first of its kind Randomized Control Trials in the Field of Development A Critical Perspective provides answers to these questions explaining how RCTs work what they can achieve why they sometimes fail how they can be improved and why other methods are both useful and necessary Bringing together leading specialists in the field from a range of backgrounds and disciplines economics econometrics mathematics statistics political economy socioeconomics anthropology philosophy global health epidemiology and medicine it presents a full and coherent picture of the main strengths and weaknesses of RCTs in the field of development Looking beyond the epistemological political and ethical differences underlying many of the disagreements surrounding RCTs it explores the implementation of RCTs on the ground outside of their ideal theoretical conditions and reveals some unsuspected uses and effects their disruptive potential but also their political uses The contributions uncover the implicit worldview that many RCTs draw on and disseminate and probe the gap between the method's narrow scope and its success while also proposing improvements and alternatives Without disputing the contribution of RCTs to scientific knowledge Randomized Control Trials in the Field of Development warns against the potential dangers of their excessive use arguing that the best use for RCTs is not necessarily that which immediately springs to mind Written in plain language this book offers experts and laypeople alike a unique opportunity to come to an informed and reasoned judgement on RCTs and what they can bring to development

Yale Textbook of Public Psychiatry Dr Selby Jacobs, Dr Jeanne Steiner, 2016-01-15 Yale Textbook of Public Psychiatry is a comprehensive resource on treatment rehabilitation recovery and public health of persons cared for in organized publically funded systems of care Edited and authored by experts in public psychiatry at the Yale Department of Psychiatry this text provides up to date information on clinical work in the public sector This book will be a useful reference for professionals and students of public psychiatry administrators and policy makers ICASDMBW 2022 Mangesh M Ghonge, Akanksha Upadhyaya, Richard A Montanaro, 2023-02-28 In today's complicated environment strategic organizational decision making is a dynamic process marked by a high degree of uncertainty It is anticipated that the technological

potential of artificial intelligence AI will provide additional support but research in this area is still in its early stages. Nonetheless because the technology is intended to perform functions beyond those of traditional machines the implications for the division of work and the defining of roles established in the current human machine relationship are being explored with more awareness. Taking this into consideration ICASDMBW 2022 was flourishingly organized on Dec 16-17, 2022 at Rukmini Devi Institute of Advanced Studies Delhi. The conference was organized with the purpose to see the applications of AI in the business world and management decision making. More than 100 participants from around the world participated in the conference and shared their insights and research ideas relevant to the theme of the conference. We are pleased to inform you that following careful evaluation the conference panel has chosen 21 excellent papers from the submissions and assembled them into the proceedings. The following themes are included in the proceedings although they are not restricted to AI in Human Resources, AI in Finance, AI in Education, AI in Marketing, Statistical analysis etc. Each manuscript has undergone thorough review and editing in order to ensure that it satisfies publication standards.

Marijuana Federalism

Jonathan H. Adler, 2020-03-17. On marijuana there is no mutual federal state policy; will this cause federalism to go up in smoke? More than one half the 50 states have legalized the use of marijuana at least for medical purposes and about a dozen of those states have gone further legalizing it for recreational use. Either step would have been almost inconceivable just a couple decades ago. But marijuana remains an illegal controlled substance under a 1970 federal law so those who sell or grow it could still face federal prosecution. How can state and federal laws be in such conflict? And could federal law put the new state laws in jeopardy at some point? This book, an edited volume with contributions by highly regarded legal scholars and policy analysts, is the first detailed examination of these and other questions surrounding a highly unusual conflict between state and federal policies and laws. Marijuana Federalism surveys the constitutional issues that come into play with this conflict as well as the policy questions related to law enforcement at the federal versus state levels. It also describes specific areas such as banking regulations in which federal law has particularly far reaching effects. Readers will gain a greater understanding of federalism in general including how the division of authority between the federal and state governments operates in the context of policy and legal disputes between the two levels. This book also will help inform debates as other states consider whether to jump on the bandwagon of marijuana legalization.

Critical Issues in Contemporary China

Czeslaw Tubilewicz, 2016-12-12. Critical Issues in Contemporary China: Unity, Stability and Development comprehensively examines key problems crucial to understanding modern day China. Organized around three interrelated themes of unity, stability and development, each chapter explores distinct issues and debates their significance for China domestically and for Beijing's engagement with the wider world. While presenting contending explanatory approaches, contributors advance arguments to further critical discussion on selected topics. Main issues analysed include political change, military transformation, legal reforms, economic development, energy security, environmental degradation, food security and safety.

demographic trends migration and urbanization labour unrest health and education social inequalities ethnic conflicts Hong Kong's integration cross Strait relations Given its thorough and up to date assessment of major political social and economic challenges facing China this fully revised and substantially expanded new edition is an essential read for any student of Chinese Studies

World Development Report 2018 World Bank Group, 2017-10-16 Every year the World Bank's World Development Report WDR features a topic of central importance to global development The 2018 WDR LEARNING to Realize Education's Promise is the first ever devoted entirely to education And the time is right education has long been critical to human welfare but it is even more so in a time of rapid economic and social change The best way to equip children and youth for the future is to make their learning the center of all efforts to promote education The 2018 WDR explores four main themes First education's promise education is a powerful instrument for eradicating poverty and promoting shared prosperity but fulfilling its potential requires better policies both within and outside the education system Second the need to shine a light on learning despite gains in access to education recent learning assessments reveal that many young people around the world especially those who are poor or marginalized are leaving school unequipped with even the foundational skills they need for life At the same time internationally comparable learning assessments show that skills in many middle income countries lag far behind what those countries aspire to And too often these shortcomings are hidden so as a first step to tackling this learning crisis it is essential to shine a light on it by assessing student learning better Third how to make schools work for all learners research on areas such as brain science pedagogical innovations and school management has identified interventions that promote learning by ensuring that learners are prepared teachers are both skilled and motivated and other inputs support the teacher learner relationship Fourth how to make systems work for learning achieving learning throughout an education system requires more than just scaling up effective interventions Countries must also overcome technical and political barriers by deploying salient metrics for

mobilizing actors and tracking progress building coalitions for learning and taking an adaptive approach to reform

PISA The Experience of Middle-Income Countries Participating in PISA 2000-2015 Lockheed Marlaine,Prokic-Bruer Tijana,Shadrova Anna,2015-11-27 This report provides a systematic review and empirical evidence related to the experiences of middle income countries and economies participating in the Programme for International Student Assessment PISA 2000 to 2015

Reconstructing the Middle East Abdulwahab Alkebsi,Nathan J Brown,Charlotta Sparre,2017-02-24 It is clear by now that the label Arab Spring has proven too simplistic to describe the uprisings that upended the political order of the Arab world in late 2010 Brutal crackdowns and civil conflict in Syria Libya and Yemen dashed the hopes that peaceful democratic revolutions would sweep the region In other countries the departure of authoritarian leaders led to many false starts without producing democratic conclusions Societies that had appeared united in opposition suddenly seemed fractious Youth were once again banished to the political margins Reconstructing the Middle East examines the changes that happened within the region from 2010 and the long term challenges and opportunities they present Featuring the work of authors with a diversity

of perspectives most of whom hail from the region it addresses key issues of political economic and societal changes the role of young people and of the international community In addition the book deals with the questions of both political and economic reform and the intertwined nature of the two Political reform that allows greater participation will fail to quell frustration if Arabs continue to feel that their job prospects are bleak Similarly Arabs will not accept economic reform that restores growth but continues to fence off the political sphere This book offers a unique perspective on the uprisings by focusing on specific issue areas where change is needed and offering a roadmap for the long road towards state building and new social contracts based on political inclusion respect for pluralism and sustained economic growth As such it will be a valuable resource for students and scholars of Middle East Politics as well as those with an interest in the Arab Spring
