

Guide to the ToK Essay

Class of 2024

Mr. Snyder

This guide is based on the IB subject guide for Theory of Knowledge, TOK 2022 (<https://www.tok2022.net/tok-essay.html>) and Kognity.

The ToK essay engages students in a formal, sustained piece of writing in response to one of the six titles that are prescribed by the IB for each examination session. These titles take the form of knowledge questions that are focused on the areas of knowledge.

The ToK essay is an external assessment component. Each student's essay is submitted to the IB to be marked by IB examiners. The ToK Essay must be written in standard 12 type size and be double spaced. It is not primarily a research paper, but it is expected that specific sources will be used, and these must be acknowledged.

The chosen title must be used exactly as given; it must not be altered in any way.

- If the title has been modified but it is still clear which prescribed title for the current session it refers to, the essay will be marked against that prescribed title. Any lack of relevance in the student's response to the prescribed title arising from this modification will be reflected in the score awarded.
- If it is clear that the title bears no resemblance to any title for the current session, the essay will be awarded a score of zero, in accordance with the TOK essay assessment instrument.

Word count

The maximum length of the essay is **1,600 words**. Extended footnotes or appendices are not appropriate for the TOK essay.

The word count includes:

- the main part of the essay
- any quotations.

The word count does not include:

- any acknowledgments
- the references (whether given in footnotes, endnotes or in-text) and bibliography
- any maps, charts, diagrams, annotated illustrations or tables.

If an essay exceeds the word limit, then examiners are instructed to stop reading after 1,600 words and to base their assessment on just the first 1,600 words. Students are required to indicate the number of words when the essay is uploaded during the submission process.
