become more geographically dispersed An increased interest in the subject of international business location has been shown by scholars in Strategic Management in Economic Geography and in Regional Science as well as in our own interdisciplinary field of International Business Studies However as is often the case in academic research communities these bodies of scholarship have tended to develop at something of a distance from one another each conversing internally more than they have with one another Location of International Business Activities aims to promote a greater conversation between those interested in the topic of Location from various different backgrounds or starting points The articles are taken from a special issue on the theme of the Multinational in Geographic Space which was published by The Journal of International Business Studies in 2013

The Economics of Iraq Amer K. Hirmis, 2018-03-12 Meticulously researched and written by Dr Amer K Hirmis the book takes readers 6000 years back to early Mesopotamian polity culture and religious codes which shaped the economy and continue to shape much of the body of Iraq's polity economy and society today Economic inefficiency inequality and lack of sufficient employment are common threads that run throughout Mesopotamian Iraqi economic history The persistence of poverty high unemployment conscious discrimination against women and a polity dictating blind allegiance and obedience from the subjects to the ruler denied the Iraqis achieving economic development the ultimate aim of which is the sustained improvement of the well being of the people Even when economic growth was attained it was desperately non inclusive With a novel approach to economic development this book examines Iraq's economy over the
