**Jurisdiction: The Sierra Leone Profile** Justice Bankole Thompson, 2015-03-12 The doctrine of universal jurisdiction has evolved throughout modern times in the context of global criminal justice as a paramount agent of combating impunity emanating from international criminality Sierra Leone as a member of the international community and the United Nations has in recent times been a pioneer in the progressive application and development of international criminal law in the African region Despite this role the country's profile both in terms of the incorporation and application of the doctrine of universal jurisdiction is deficient in several major respects falling far short of its dual international obligation not to provide safe havens from justice for perpetrators of international crimes and to combat impunity from such criminogenic acts Hence a compelling reason for the author to write this book was to provide a seminal scholarly work on the subject articulating the existing state of the law in Sierra Leone and highlighting the deficiencies in the law and factors inhibiting the exercise of universal jurisdiction in this UN member state It was also to propose necessary substantive and procedural law reforms in the state's jurisprudence on the subject The book is recommended reading for practitioners and scholars in international

impact of this contribution The ICC has an additional preventative mandate which is fulfilled by its timely intervention in the form of preliminary examinations Moreover when situations of atrocity crimes are triggered its complementarity regime incentivises states to stop violence and comply with their duties to investigate and prosecute thus strengthening the rule of law at the national level The new role granted to victims by the Rome Statute is key to the ICC s successful fulfilment of these functions This new book of essays which includes the author s unpublished inaugural lecture at Utrecht University examines these issues and places particular emphasis on the additional preventative mandate of the ICC the ICC complementarity regime the new role granted to victims and the prosecution of the highest leadership through the notion of indirect perpetration The work of Professor Olasolo breaks new ground in the academic field of international criminal law as an analysis of the system as a whole I therefore wish to express my congratulations for this work From the Foreword by Luis Moreno Ocampo Prosecutor International Criminal Court The Hague 27 April 2011 Professor Hector Olasolo s compilation provides an enormous source of easy reference to students academia and legal actors in the field of international law A look at the titles compiled in this volume demonstrates the present challenges to international criminal justice From the Preliminary Reflections by Elizabeth Odio Benito Judge and Former Vice President International Criminal Court The Hague May 2011 This collection written by a brilliant and prolific scholar and practitioner of international criminal justice is an insightful and important contribution to the existing literature Each chapter in this collection is copiously footnoted and thoroughly researched making it an important reference tool for scholars and practitioners in the field Additionally and importantly the chapters explore without polemic areas of controversy and dissent and thoughtfully and scrupulously set forth arguments for and against particular doctrinal choices From the Introduction by Leila Nadya Sadat Henry H Oerschelp Professor of Law and Director Whitney R Harris World Law Institute Washington University School of Law Alexis de Tocqueville Distinguished Fulbright Chair Universit de Cergy Pontoise Paris Spring 2011 *Human and Non-Human Targets in International Armed Conflicts* Patrycja Grzebyk, 2022-03-24 A comprehensive analysis of human and non human targets in contemporary armed conflicts with references to the most recent practice **Research Handbook on EU Criminal Law** Valsamis Mitsilegas, Maria Bergström, Teresa Quintel, 2024-12-09 This thoroughly revised second edition provides an advanced analysis of EU criminal law as a structurally and constitutionally distinct policy area and field of research EU criminal law is one of the fastest evolving and most challenging fields of law and this Research Handbook contains new and substantially updated chapters to assess recent legislative developments and CJEU case law **The Shari'a and Islamic Criminal Justice in Time of War and Peace** M. **The Arms Trade Treaty: A Commentary** Andrew Clapham, Stuart Casey-Maslen, Gilles Giacca, Sarah Parker, 2016-07-28 The United Nations Arms Trade Treaty became binding international law in late 2014 and although the text of the treaty is a relatively concise framework for assessing whether to authorize or deny proposed conventional weapons transfers by States Parties there exists controversy as to the meaning of certain key provisions Furthermore the treaty requires a national regulatory body to authorize proposed transfers of conventional weapons covered by the treaty but does not detail how such a body should be established and how it should effectively function The Arms Trade Treaty A Commentary explains in detail each of the treaty provisions the parameters for prohibitions or the denial of transfers international cooperation and assistance and implementation obligations and mechanisms As states ratify and implement the Treaty over the next few years the commentary provides invaluable guidance to government officials commentators and scholars on the meaning of its contentious provisions This volume describes in detail which weapons are covered by the treaty and explains the different forms of transfer that the Arms Trade Treaty regulates It covers international human rights trade disarmament humanitarian law criminal law and state to state use of force as well as the application of the treaty to non state actors

**The Premises of International Criminal Procedure** Megumi Ochi, 2024-11-22 How does international criminal procedure differ from any domestic legal principles and why What premises of international criminal procedure do give rise to such differences Can we provide any unified socio legal explanation for the differences between the procedure of the International Criminal Court and the domestic legal principles This boils down to the question what are the premises inherent in international criminal procedure Applying the premise theory of general principles of law this book conducts a comparative analysis of various general principles of international criminal procedure with corresponding principles that are valid domestically and in general international law and identifies special premises in the procedural law of the ICC This book discloses the four points that have not been identified in previous studies A the fact that the value of international criminal procedure frequently mentioned in previous studies has not actually had much of an impact i the premise of seriousness of

the core crime has little influence at the procedural level and ii the premise of deterring illegal investigations has little impact B the factors that have not been recognized as circumstances or values on which international criminal procedure is premised in previous research significantly influence international criminal procedure iii the entire procedure is based on the primitive premise of speed and first come first served and iv the impact of the premise of consideration for national sovereignty which is associated with the fact that the ICC is an international organization based on a treaty is critical The ICC s institutional premises of the value of expeditiousness and lacking centralized control over its limbs have had a significant impact on the various aspects of international criminal procedure
