*Introduction to Econometrics* Christopher Dougherty, 2007 Dougherty provides a step by step introductory guide to the core areas of this demanding subject The book includes new material on specification tests binary choice models tobit analysis and unit root tests and cointegration

**Introduction to Econometrics** Christopher Dougherty, 2011-03-03 Taking a modern approach to the subject this text provides students with a solid grounding in econometrics using non technical language wherever possible

**International Law and Society** Laura A. Dickinson, 2017-11-30 Scholars of international human rights law are largely unfamiliar with law and society scholarship while the study of international human rights has remained at the margins of the law and society movement *International Law and Society Empirical Approaches to Human Rights* seeks to bridge this gap by presenting the work of a growing number of academics who are adopting a range of empirical approaches to international human rights Drawn from the fields of anthropology sociology political science and law the studies featured in this volume use a variety of qualitative and quantitative methods to analyze core issues of international law and human rights such as compliance the development of norms and the role of social movements

**Introductory Econometrics for Finance** Chris Brooks, 2008-05-22 This best selling introduction to econometrics is specifically written for finance students The new edition builds on the successful data and problem driven approach of the first edition giving students the skills to estimate and interpret models while developing an intuitive grasp of underlying theoretical concepts

*Economic and Business Analysis* Frank S. T. Hsiao, 2011 As we enter the 21st century most students are familiar with microcomputers They are adept in visually oriented playing and learning as evidenced by prevalent video games music videos and DVD movies This book appeals to the modern day undergraduate and graduate students by using microcomputers through innovative uses of spreadsheets and built in spreadsheets equations and formulae This microcomputer skill intensive book covers major topics in both economic analysis and business analysis Students will learn how to build complex spreadsheet layouts and perform high level calculations and analysis intuitively in a non threatening environment To encourage students active learning and critical thinking they will be given hands on practice by creating tables and graphs presented in the text and homework and by changing the parameters to find the effects of the change instantly At the same time by acquainting themselves with the popular spreadsheet program they will acquire more advanced job skills directly

**Transitional Justice and Corporate Accountability from Below** Leigh A. Payne, Gabriel Pereira, Laura Bernal-Bermúdez, 2020-04-30 Bruno Tesch was tried and executed for his company s Zyklon B gas used in Nazi Germany s extermination camps This book examines this trial and the more than 300 other economic actors who faced prosecution for the Holocaust s crimes against humanity It further tracks and analyses similar transitional justice mechanisms for holding economic actors accountable for human rights violations in dictatorships and armed conflict international foreign and domestic trials and truth commissions from the 1970s to the present in every region of the world

This book probes what these accountability efforts are why they take place and when where and how they unfold Analysis of the authors original database leads them to conclude that corporate accountability from below is underway particularly in Latin America A kind of Archimedes lever places the right tools in weak local actors hands to lift weighty international human rights claims overcoming the near absence of international pressure and the powerful veto power of business
