The Fruit of the Spirit Al L. Holloway, 2008-11 Though the schism of valuing spirituality with respect to social work practice has lessened over the years there continues to be a gap in our understanding as to exactly what spirituality is and how one might incorporate it within social work practice It is my contention that social workers should not only be incorporating spirituality within their practice but also they should become spiritual exemplars themselves Fruit of the Spirit A Primer for Spiritually minded Social Workers provides some provocative notions that will spur the reader forward on his/her spiritual development It introduces to the reader the notion of spiritual differentiation from the animalistic notion of self which I describe as the indifferent heart realm to the development of humanistic principles craving heart realm to the ultimate experience of our purposeful journey of being fully cognizant of our spiritual selves pure heart realm This process is exemplified with a gardening metaphor which the reader can progress from seeding awareness of one's spiritual self and the sowing of spiritual seeds weeding the structure and care of developing our spiritual selves and the harvesting the ingesting and granting of spiritual fruits that has been produced Traditional knowledge of social work practice helps to elucidate the student whereas embracing spiritual principles is about transforming and transcending the student to higher levels The fruits that are gathered are the attributes of God e.g love peace goodness etc There are exercises at the end of each chapter that will assist the reader in developing his/her spirituality A-Z of Learning Outside the Classroom Russell Grigg, Helen Lewis, 2016-04-07 Learning outside the classroom has been high on the political agenda for several years now but recent Ofsted reports indicate that this can be confined to termly or yearly trips as an extra This book provides a convincing and readable promotion of regular outdoor learning It draws on relevant research to reinforce that working in

real environments benefits children s all round development cognitively emotionally physically and spiritually This is illustrated through a wide range of engaging activities from how to make a scarecrow to interpreting a painting in a gallery from getting the best from a library visit to how best to attack a medieval castle This practical guide for busy teachers will help them to link what they do in and out of the class It s a must for every staffroom bookshelf **School Library Journal**
