Target Round

Problems 1 and 2

Name \_\_\_\_\_

School \_\_\_\_\_

State \_\_\_\_\_

**DO NOT BEGIN UNTIL YOU ARE INSTRUCTED TO DO SO**

This round of the competition consists of eight problems. There will be questions to solve in pairs. While you wait your turn, the problems will be assigned and answers will be collected. Before the time limit is announced, you must leave the hall and all test materials are collected. The test team will return to the hall after one hour of this round. If time runs out, you must stop your work and read silently as the problems are read aloud. Results will be tallied while the problems are being read. After discussion is begun, you are given pencil and paper for writing. Record your final answer in the designated space on the answer sheet. An answer may be fractional, decimal, and simplified or mixed number. The word "number" may be abbreviated and simplified, but that is not an official paper. Use an eraser and calculator. If any calculator was provided before this round, use the most accurate calculator possible.
