

MOTOR VEHICLE SAFETY

Employers cannot control what happens on the road, but they can promote safe driving behavior by providing safety information to workers and by setting and enforcing driver safety policies, says OSHA. The National Institute for Occupational Safety and Health (NIOSH) provides a list of prevention strategies for employers.

POLICIES

Assign a key member of the management team responsibility and authority to set and enforce comprehensive driver safety policies. Enforce mandatory seatbelt use, and develop work schedules that allow employees to obey speed limits and to follow applicable hours-of-service regulations. Do not require workers to drive irregular hours or far beyond their normal working hours, and do not require them to conduct business on a cell phone while driving.

FLEET MANAGEMENT

Adopt a structured vehicle maintenance program, and provide company vehicles that offer the highest possible levels of occupant protection. For safety programs, teach workers strategies for recognizing and managing driver fatigue and in-vehicle distractions. Provide training to workers operating specialized motor vehicles or equipment, and emphasize the need to follow safe driving practices on and off the job.

DRIVER PERFORMANCE

Ensure that workers assigned to drive on the job have a valid driver's license and one that is adequate for the type of vehicle being driven. Check driving records of prospective workers, and perform periodic rechecks after hiring, while also maintaining complete and accurate records of workers' driving performances.
