Mark P. Cosgrove

Evolution Evolves A Presuppositional Argument Against Naturalism:

Evolution Evolves T. Dougherty, 2014-11-17 Though the idea of unpredictable evolutionary change is fundamental to the philosophy of Darwinian naturalism Dougherty uncovers a common tendency among the proponents of naturalism to smuggle in a hand picked group of timeless absolutes from the outset of inquiry From the start evolution is made curiously immune to itself The recognition of the fact that the mechanisms governing the evolutionary process must themselves be subject to evolution and change is the dawn of a new era in the philosophy of naturalism **Hope's Reason: a Journal of**

Apologetics Vol. 2 No. 1 Stephen Bedard, 2011-09-28 In an increasingly skeptical world there is now more of a need than ever for quality apologetic resources defending the Christian faith The purpose of this journal is to bridge the gap between the academy and the church equipping pastors and interested laypeople to present the Christian faith to an unbelieving world *Come Let Us Reason* Paul Copan, William Lane Craig, 2012 Divine hiddenness naturalism Zeitgeist The Movie

Hinduism Addressing contemporary challenges to the church nineteen respected modern Christian apologists offer thoughtful new essays on culture the historical Jesus other religions and more **Evidences for God and His Creations:**

Nature, the Flood, and the Bible Dr. T. J. Tofflemire, 2011-07-21 This book provides summary apologetics from about 200 references It is unique in that many authors with differing viewpoints are put together in brief key point summaries Some of the books covered are 1100 pages long The original authors views are briefly integrated and compared The different views of creation are also discussed and compared and given a open minded weighing Are you concerned about the fact that 70% of our youth no longer attend church and do not have a biblical world view The naturalistic or humanistic world view they adopt from schooling favors the following 1 Man evolved from primates and is a biological machine with no purpose 2 There is no source of true morals and thus morals are relative and determined by whatever a given group decides or whatever is most popular 3 Since man is only and animal there is no basis for individual human rights only rights for the masses There are some good arguments provided in the book to counter all of this and provide a biblical world view These arguments are brief and easy to share in witnessing situations The Evolutionary Argument against Naturalism Jim Slagle, 2021-06-17

Contemporary discussions in metaphysics epistemology and philosophy of mind are dominated by the presupposition of naturalism Arguing against this established convention Jim Slagle offers a thorough defence of Alvin Plantinga's Evolutionary Argument against Naturalism EAAN and in doing so reveals how it shows that evolution and naturalism are incompatible Charting the development of Plantinga's argument Slagle asserts that the probability of our cognitive faculties reliably producing true beliefs is low if ontological naturalism is true and therefore all other beliefs produced by these faculties including naturalism itself are self defeating He critiques other well known epistemological approaches including those of Descartes and Quine and deftly counters the many objections against the EAAN to conclude that metaphysical naturalism should be rejected on the grounds of self defeat By situating Plantinga's argument within a wider context and showing that

science and evolution cannot entail naturalism Slagle renders this most common metaphysical view irrational As such the book advocates an important reconsideration of contemporary thought at the intersection of philosophy science and religion

Sehnsucht: The C. S. Sire, 2009-08-20 For more than thirty years The Universe Next Door has set the standard for an introduction to worldviews In this fifth edition James Sire offers concise and clear introductions to theism deism naturalism Marxism nihilism existentialism Eastern monism New Age philosophy and postmodernism Features a new chapter on Islam Foundations of Christian Thought Mark P. Cosgrove, Written by a veteran Christian educator this readable book describes the relationship between the Christian faith and the world of learning by looking at the five modern worldviews competing with Christian theism **The Mind and the Machine** Matthew T. Dickerson, 2016-07-29 Are humans just complex biochemical machines mere physical parts of a causally closed materialist universe Are we approaching the so called Singularity when human consciousness can and will be downloaded into computers Or is there more to the human person something that might be known as soul or spirit As this book makes clear the answers to these questions have profound implications to topics such as heroism creativity ecology and the possibility of reason and science In exploring this important topic Dickerson engages the ideas of some well known twentieth and twenty first century espousers of physicalism including philosopher Daniel Dennett Consciousness Explained biologist Richard Dawkins The God Delusion futurist engineer Raymond Kurzweil The Age of Spiritual Machines psychologist B F Skinner Beyond Freedom and Dignity and mathematician philosopher Bertrand Russell Why I Am Not a Christian Through a careful reading of their works Dickerson not only provides a five fold critique of physicalism but also offers a Christian alternative in the form of integrative dualism which affirms the existence of both a physical and spiritual reality without diminishing the goodness or importance of either and acknowledges that humans are spiritual as well as bodily persons **The Evolutionary Argument Against Naturalism** Jim Slagle, 2021 Contemporary discussions in metaphysics epistemology and philosophy of mind are dominated by the presupposition of naturalism Arguing against this established convention Jim Slagle offers a thorough defence of Alvin Plantinga's Evolutionary Argument against Naturalism EAAN and in doing so reveals how it shows that evolution and naturalism are incompatible Charting the development of Plantinga's argument Slagle asserts that the probability of our cognitive faculties reliably producing true

beliefs is low if ontological naturalism is true and therefore all other beliefs produced by these faculties including naturalism itself are self defeating He critiques other well known epistemological approaches including those of Descartes and Quine and deftly counters the many objections against the EAAN to conclude that metaphysical naturalism should be rejected on the grounds of self defeat By situating Plantinga s argument within a wider context and showing that science and evolution cannot entail naturalism Slagle renders this most common metaphysical view irrational As such the book advocates an important reconsideration of contemporary thought at the intersection of philosophy science and religion
