

Diagnostic Evaluation of Articulation and Phonology (DEAP)

Date Administered: **00/00/0000**

The Diagnostic Evaluation of Articulation and Phonology (DEAP) has a total of five tests with two screens and three assessments. This test is for children aged 3;0-6;11 years old. The Diagnostic Screener can help to determine if further testing is necessary, and which tests should be given. The Articulation Assessment includes evaluation for consonants and vowels at the word level. The Oral Motor Screen determines if any oral motor concerns are present. The Phonology Assessment assesses phonological skills at the word and connected speech levels. Word Inconsistency Assessment determines if there is any variability in the phonological errors that the child is producing.

The Diagnostic Screen determines further testing that could be necessary based on a child's articulation and phonology skills. The child is asked to name 10 pictures at the single word level to determine their single word production. The sounds that are in error are indicated on the record form. The articulation errors that **XX** had in error **WERE/WERE NOT** developmentally appropriate. The specific sounds that they produced in error were: **(LIST ERRORS HERE)**. Some words that **XX** produced in error were **(LIST EXAMPLES OF WORDS)**. They are also asked to imitate phonemes that were articulated incorrectly when naming the pictures to determine phoneme stimulability. **XX WAS/WAS NOT** stimulable for age-appropriate phonemes. The phonemes that the child can not produce are recorded to determine any phonological patterns. There **WERE/WERE NOT** phonological errors present. The phonological error patterns present were: **(INSERT ERROR PATTERNS)**. For example, **(LIST EXAMPLES OF WORDS HERE)**. Finally, the child is asked to name the pictures again to determine if there are any inconsistencies. The number of differences are added up and a single-word inconsistency score is generated. **XX's** score of **00 DOES/DOES NOT** meet criterion. Based on the results of this assessment **(INSERT DIAGNOSTIC SCREEN SUMMARY FROM RECORD FORM)** and **(INSERT DIAGNOSTIC SCREEN RECOMMENDATIONS FROM RECORD FORM)**.

The Articulation Assessment requires the child to name 30 pictures. The number of errors are counted and recorded, then the Articulation error score is calculated and converted to a scaled score. Scores within the average range are from 7-13. **XX** earned a score of **00**, which is considered **(INSERT DESCRIPTOR)**. This score can be further analyzed by percentage of consonants correct, percentage of vowels correct, and percentage of phonemes correct. Scores greater than 85% are considered within the Mild Articulation Severity. Then, the child is asked to imitate the sounds that were produced in error. This helps the examiner to determine what phonemes the child is stimulable and not stimulable for. Below is **XX's** percentage correct of consonants, vowels, and phonemes as well as the phonemes in error.

might not be the Example Diagnostic Articulation Reports full book , it can give you a taste of the authors writing style.Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Example Diagnostic Articulation Reports eBooks, including some popular titles.

FAQs About Example Diagnostic Articulation Reports Books

What is a Example Diagnostic Articulation Reports PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Example Diagnostic Articulation Reports PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Example Diagnostic Articulation Reports PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Example Diagnostic Articulation Reports PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Example Diagnostic Articulation Reports PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
