Independent Schools Yearbook 2012-2013 none,2013-06-20 The highly respected book of reference of sought after Independent Schools in membership of the Independent Schools Council s Associations HMC GSA The Society of Heads IAPS ISA and COBIS Shadow Education and Social Inequalities in Japan Steve R.

Entrich,2017-12-07 This book examines why Japan has one of the highest enrolment rates in cram schools and private tutoring worldwide It sheds light on the causes of this high dependence on shadow education and its implications for social inequalities The book provides a deep and extensive understanding of the role of this kind of education in Japan It shows new ways to theoretically and empirically address this issue and offers a comprehensive perspective on the impact of shadow education on social inequality formation that is based on reliable and convincing empirical analyses Contrary to earlier studies the book shows that shadow education does not inevitably result in increasing or persisting inequalities but also inherits the potential to let students overcome their status specific disadvantages and contributes to more opportunities in education Against the background of the continuous expansion and the convergence of shadow education systems across the globe the findings of this book call for similar works in other national contexts particularly Western societies without traditional large scale shadow education markets The book emphasizes the importance and urgency to deal with the modern excesses of educational expansion and education as an institution in which the shadow education industry has made itself seemingly indispensable

Rethinking Islamic Finance Ayesha Bhatti,Saad Azmat,2018-12-12 Islamic finance s phenomenal growth owes to the Shariah compliant nature of its financial instruments Shariah forbids the charging of interest Riba and instead promulgates risk sharing and trade based modes of financing The Islamic financial industry has been subject to both critique and admiration Critics argue that Islamic instruments bearing debt based structures differ from their conventional counterparts only in legal lexicon and not in economic impact The admirers argue that such instruments irrespective of wider economic implications rigorously comply with juristically sound Islamic principles This book aims to reconcile the above dispute It argues that the financial impact of instruments is a consequence of the way they are priced and structured The similarity in pricing and structures is an outcome not of the underlying Islamic financial modes but of the

competitive environment in which Islamic instruments compete Even risk sharing and trade based Islamic structures if implemented in such an environment would have a financial impact similar to that of conventional instruments This book has a wider appeal for both academic and non academic audiences It can complement undergraduate and graduate courses as an additional reading on the intricacies of Islamic financial instruments and markets For PhD students it would help identify future research areas To non academics it offers a deeper understanding regarding the working of the Islamic finance industry

World Development Report 2013 World Bank,2012-10-15 Jobs provide higher earnings and better benefits as countries grow but they are also a driver of development Poverty falls as people work their way out of hardship and as jobs empowering women lead to greater investments in children Efficiency increases as workers get better at what they do as more productive jobs appear and less productive ones disappear Societies flourish as jobs bring together people from different ethnic and social backgrounds and provide alternatives to conflict Jobs are thus more than a byproduct of economic growth They are transformational they are what we earn what we do and even who we are High unemployment and unmet job expectations among youth are the most immediate concerns But in many developing countries where farming and self employment are prevalent and safety nets are modest are best unemployment rates can be low In these countries growth is seldom jobless Most of their poor work long hours but simply cannot make ends meet And the violation of basic rights is not uncommon Therefore the number of jobs is not all that matters jobs with high development payoffs are needed Confronted with these challenges policy makers ask difficult questions Should countries build their development strategies around growth or should they focus on jobs Can entrepreneurship be fostered especially among the many microenterprises in developing countries or are entrepreneurs born Are greater investments in education and training a prerequisite for employability or can skills be built through jobs In times of major crises and structural shifts should jobs not just workers be protected And is there a risk that policies supporting job creation in one country will come at the expense of jobs in other countries The World Development Report 2013 Jobs offers answers to these and other difficult questions by looking at jobs as drivers of development not as derived labor demand and by considering all types of jobs not just formal wage employment The Report provides a framework that cuts across sectors and shows that the best policy responses vary across countries depending on their levels of development endowments demography and institutions Policy fundamentals matter in all cases as they enable a vibrant private sector the source of most jobs in the world Labor policies can help as well even if they are less critical than is often assumed Development policies from making smallholder farming viable to fostering functional cities to engaging in global markets hold the key to success

U.S. Freight Rail Economics and Policy Jeffrey Macher, John Mayo, 2019-04-25 The passage of the Staggers Rail Act in 1980 led brought a renaissance to the freight rail industry In the decade following economists documented the effects of the Act on a variety of important economic metrics including prices costs and productivity Over the preceding years and with the return of the industry to more stable footing attention to the industry by economists faded The lack of attention however has not been due to a dearth of ongoing economic and policy issues that continue to confront the industry In this volume we begin to rectify this inattention Rather than retread older analyses or provide yet another look at the consequences of Staggers we assemble a collection of ten

chapters in four sections that collectively provide fresh and up to date analyses of the economic issues and policy challenges the industry faces the first section sets the context through foundational discussion of freight rail the second section highlights the role of freight rail in an increasingly interrelated economy the third section examines industry structure and scope in freight rail and the fourth section assesses current regulatory challenges that confront freight rail This book will be of great value to researchers academics policymakers and students interested in the fields of freight rail economics and policy transportation business history and regulatory economics

Contract Farming and the Development of Smallholder Agricultural Businesses Joseph A. Kuzilwa, Niels Fold, Arne Henningsen, Marianne Nylandsted

Larsen, 2017-08-24 Contract farming has received renewed attention recently as developing economies try to grapple with how to transform the agricultural sector and its associated value chains This book examines different contract arrangements for selected crops applying both qualitative and quantitative approaches in order to examine how contract farming affects smallholders and value chain dynamics in Tanzania Major themes covered in the book include contract farming policy contract farming and value chain dynamics contract farming adoption decisions contract farming and income diversification The authors also discuss alternative aspects of contract farming such as trust conspiracy empowerment and corporate social responsibility The book presents original research from case studies conducted in Tanzania on sugarcane tobacco sunflower and cotton These crops have a history of trials and errors with contract farming involving smallholders Furthermore they are targeted in national strategies as some of the main crops for establishment and upgrading of agro industrial activities in Tanzania

Marijuana Federalism Jonathan H. Adler, 2020-03-17 On marijuana there is no mutual federal state policy will this cause federalism to go up in smoke More than one half the 50 states have legalized the use of marijuana at least for medical purposes and about a dozen of those states have gone further legalizing it for recreational use Either step would have been almost inconceivable just a couple decades ago But marijuana remains an illegal controlled substance under a 1970 federal law so those who sell or grow it could still face federal prosecution How can state and federal laws be in such conflict And could federal law put the new state laws in jeopardy at some point This book an edited volume with contributions by highly regarded legal scholars and policy analysts is the first detailed examination of these and other questions surrounding a highly unusual conflict between state and federal policies and laws Marijuana Federalism surveys the constitutional issues that come into play with this conflict as well as the policy questions related to law enforcement at the federal versus state levels It also describes specific areas such as banking regulations in which federal law has particularly far reaching effects Readers will gain a greater understanding of federalism in general including how the division of authority between the federal and state governments operates in the context of policy and legal disputes between the two levels This book also will help inform debates as other states consider whether to jump on the bandwagon of marijuana legalization
