International Economics Of Resource Efficiency:

International Economics of Resource Efficiency Raimund Bleischwitz, Paul J.J. Welfens, ZhongXiang Zhang, 2011-07-17 Human societies face a threatening future of resource scarcity and environmental damages This book addresses the challenge of turning these risks into opportunities and policies It is a collection of high level contributions from experts of sustainable growth and sustainable resource management Focussing on economics sustainability technology and policy the book highlights system innovation leapfrogging strategies of emerging economies possible rebound effects and international market development It puts natural resources centre stage and will make an important contribution to achieving the goal of a 21st century Green Economy

Resource Efficiency Complexity and the Commons Bruce Lankford, 2013-09-05 The efficient use of natural resources is key to a sustainable economy and yet the complexities of the physical aspects of resource efficiency are poorly understood In this challenging book the author proposes a major advance in our understanding of this topic by analysing resource efficiency and efficiency gains from the perspective of common pool resources applying this idea particularly to water resources and its use in irrigated agriculture The author proposes a novel concept of the paracommons through which the savings of increased resource efficiency can be viewed In effect he asks who gets the gain of an efficiency gain By reusing economising and avoiding losses wastes and wastages freed up resources are available for further use by four destinations the same user parties directly connected to that user the wider economy or returned to the common pool The paracommons is thus a commons of and competition for resources salvaged by changes to the efficiency of natural resource systems The idea can be applied to a range of resources such as water energy forests and high seas fisheries Five issues are explored the complexity of resource use efficiency the uncertainty of efficiency interventions and outcomes destinations of freed up losses wastes and wastages implications for resource conservation and the interconnectedness of users and systems brought about by efficiency changes The book shows how these ideas put efficiency on a par with other dimensions of resource governance and sustainability such as equity justice resilience and access

Addressing resource efficiency through the Ecodesign Directive Carl Dalhammar, Erika Machacek, Anja Bundgaard, Kristina Overgaard Zacho, Arne Remmen, 2014-04-08 The European Union has initiated a number of initiatives to improve resource efficiency in Europe The Ecodesign Directive is one of the policy instruments that could aid the transition towards a more resource efficient economy So far the Directive has mainly been applied to set requirements related to energy efficiency but there is potential for setting legal standards that increase product durability and promote the future re use and recycling of components and materials This paper examines the potential benefits and disadvantages in applying the Directive for this purpose and analyzes the potential to apply certain types of legal standards There is a need for continuous development of indicators and methods in order to allow for a broader range of legal standards in the future The study provides some short and long term recommendations on the way forward

Investing in Resource Efficiency Florian Flachenecker, Jun Rentschler, 2018-08-21

This book covers the multi faceted incentives trade offs and challenges associated with the economics and politics of resource efficiency investments By contributing a wide range of empirical evidence practitioners insights and policy perspectives this book carefully examines the role of resource efficiency in reconciling environmental and economic considerations It also discusses the critical role of resource efficiency investments in mitigating climate change and enabling sustainable development Featuring expert insights from academia the European Commission the European Investment Bank and the European Bank for Reconstruction and Development this book provides a policy oriented guide reference and toolbox for unlocking the potential of resource efficiency To this end it identifies practical measures for overcoming barriers and creating smart incentives for leveraging resource efficiency investments Overall this book brings together evidence to develop innovative ideas and strategies for improving the efficient use of resources and advancing clean and sustainable development This book is an important and timely contribution Angel Gurria Secretary General OECD *Releasing the Commons* Ash Amin, Philip Howell, 2016-04-28 This book moves beyond seeing the commons in the past tense an entity passed over from the public into the private to reimagine the commons as a process a contest of force a reconstitution and a site of convening practices It highlights new spaces of gathering opening up such as the digital commons and new practices of being in common such as community economies and solidarity networks The commons is seen as a contested domain of the collective and as a changing way of being in common with the balance poised in the tensile play between political economy and social innovation The book focuses on the possibility of recovering a future in which more can be held by the many focusing on three concepts nation and nature as a commons publics and rights and bodies concerning the management of lives and livelihoods Across these three passage points the book finds evidence of a commons under attack but also defended in fragile though promising ways With contributions from leading scholars this thought provoking book will be of great interest to students and scholars in geography environmental studies politics anthropology and cultural studies Natural Resources and Sustainability Daniel E. Vasey, Sarah E. Fredericks, Lei Shen, Shirley Thompson, 2011-12-08 Natural Resources and Sustainability explores how human needs and desires from sustenance and shelter to recreation and travel have spurred the consumption of Earth s material resources Scientists ecologists and other expert authors present the historical impact of commercial activities in industries as varied as fisheries agriculture energy and mineral extraction discuss the global distribution and use of renewable and nonrenewable resources and focus on innovative approaches for the future Readers will learn why renewal doesn t necessarily put a resource beyond harm and why the no free lunch adage applies to all natural resources **Resources, Efficiency and Globalization** P. Dimitratos, M. Jones, 2010-02-12 International business for the modern firm has to compromise the need to use limited resources and achieve efficiency in the global marketplace This book examines these issues from the viewpoint of the internationalized SME the big multinational and the local subsidiary drawing on research conducted in different countries *Afro-Eurasia: Assessing Sustainability* Ray C. Anderson, Louis

KotzÃ©, Stephen Morse, 2012-10-31 Afro Eurasia Assessing Sustainability focuses on the geographic area where humans originated and first began to make use of the natural world Earth's largest landmass stretching from Portugal in the west across the steppes of Russia and south across Africa to the Cape of Good Hope By examining the history of human expansion as well as 21st century pressures to address ecosystem damage across the region international scholars and regional experts weave sustainability into core curricular subjects The interdisciplinary coverage includes national and regional environmental histories as well as business and commerce migration educational institutions law and government and the lifestyles of diverse populations

First International Conference on Resource Efficiency in Interorganizational Networks - ResEff 2013 - Geldermann, Jutta, Schumann, Matthias, 2013-11-26 Renewable raw materials are becoming increasingly important as an alternative resource base in industrial networks Consequently research for methods improving the efficient use of renewable resources in production processes with by products is crucial The aim is cascade utilization thus the multiple utilization of a raw material before its conversion into energy The International Conference on Resource Efficiency in Interorganizational Networks ResEff brings together interdisciplinary researchers developing strategies and solution concepts for efficient resource utilization It is therefore a platform for scientific exchange both between experts as well as interdisciplinary groups from agricultural and forestry science mathematical optimization operations research marketing business informatics production and logistics The following facets of the challenging topic of resource efficiency in interorganizational networks are covered Materials technologies planning of production and value added networks for renewable resources as well as governance coordination and sale of products from renewable resources

The Green Economy Transition in Europe Çagatay Basarir, Altug Günar, 2024-05-29 The Green Economy Transition in Europe Strategies Regulations and Instruments aims to investigate the current green economic and financial practices strategies and regulations in Europe the European Union and its member states In this context the EU's current green economic policies instruments and practices will be discussed and analyzed The study seeks to answer the question Did climate change and the unsustainability of fossil resources initiate the green transformation in Europe in the area of finance and economy and how were the tools policies and regulations used for this shape in the green economy This study differs from previous studies with an interdisciplinary approach focusing in detail on green economic transition and transformation issues in Europe and the EU
