The Method and Culture of Comparative Law Maurice Adams, Dirk Heirbaut, 2014-12-01 Awareness of the need to deepen the method and methodology of legal research is only recent The same is true for comparative law by nature a more adventurous branch of legal research which is often something researchers simply do whenever they look at foreign legal systems to answer one or more of a range of questions about law whether these questions are doctrinal economic sociological etc Given the diversity of comparative research projects the precise contours of the methods employed or the epistemological issues raised by them are to a great extent a function of the nature of the research questions asked As a result the search for a unique one size fits all comparative law methodology is unlikely to be fruitful That however does not make reflection on the method and culture of comparative law meaningless Mark Van Hoecke has throughout his career been interested in many topics but legal theory comparative law and methodology of law stand out Building upon his work this book brings together a group of leading authors working at the crossroads of these themes the method and culture of comparative law With contributions by Maurice Adams John Bell Joxerramon Bengoetxea Roger Brownsword Se n Patrick Donlan Rob van Gestel and Hans Micklitz Patrick Glenn Jaap Hage Dirk Heirbaut Jaakko Husa Souichirou Kozuka and Luke Nottage Martin L hnig Susan Millns Toon Moonen Francois Ost Heikki Pihlajam ki Geoffrey Samuel Mathias Siems J rn yrehagen Sunde Catherine Valcke and Matthew Grellette Alain Wijffels

Common Law Judging Douglas E. Edlin, 2020-03-06 Are judges supposed to be objective Citizens scholars and legal professionals commonly assume that subjectivity and objectivity are opposites with the corollary that subjectivity is a vice and objectivity is a virtue These assumptions underlie passionate debates over adherence to original intent and judicial activism In Common Law Judging Douglas Edlin challenges these widely held assumptions by reorienting the entire discussion Rather than analyze judging in terms of objectivity and truth he argues that we should instead approach the role of a judge s individual perspective in terms of intersubjectivity and validity Drawing upon Kantian aesthetic theory as well as case law legal theory and constitutional theory Edlin develops a new conceptual framework for the respective roles of the individual judge and of the judiciary as an institution as well as the relationship between them as integral parts of the broader legal and political community Specifically Edlin situates a judge s subjective responses within a form of legal reasoning and reflective judgment that must be communicated to different audiences Edlin concludes that the individual values and perspectives of judges are indispensable both to their judgments in specific cases and to the independence of the courts According to the common law tradition judicial subjectivity is a virtue not a vice

Comparative Law Uwe Kischel, 2019-02-21 Uwe Kischel s comprehensive treatise on comparative law offers a critical introduction to the central tenets of comparative legal scholarship The first part of the book is dedicated to general aspects of comparative law The controversial question of methods in particular is addressed by explaining and discussing different approaches and by developing a contextual approach that seeks to engage with real world issues and takes a practical perspective on contemporary comparative legal scholarship The second part of the book offers a detailed treatment of the major legal contexts across the globe including common law civil law systems based on Germany and France and extended to Eastern Europe Scandinavia and Latin America among others the African context with an emphasis on customary law different contexts in Asia Islamic law and law in Islamic countries plus a brief treatment of Jewish law and canon law and transnational contexts public international law European Union law and lex mercatoria The book offers a coherent treatment

of global legal systems that aims not only to describe their varying norms and legal institutions but to propose a better way of seeking to understand how the overall context of legal systems influences legal thinking and legal practice EU

Non-Discrimination Law in the Courts Jule Mulder, 2017-01-12 Since the year 2000 the material and personal scope of EU non discrimination law has been significantly broadened and has challenged national courts to introduce a comprehensive equality framework into their national law to correspond with the European standard The book provides a multi layered culturally informed comparison of juridical approaches to EU in direct sex and sexualities discrimination and its implementation in Germany and the Netherlands It examines how and why national courts apply national non discrimination law with a European origin differently although the legislation derives from the same set of EU law and the national courts have to respect the interpretive competence of the CJEU The book provides valuable insights into the national and European context which shape the dialogue and influences of the courts inter se the national application of EU law and the harmonisation process within the area of gender equality law and beyond A Dutch and German comparison is of special interest here because both countries approaches towards non discrimination law are quite different despite the similarities in the respective legal systems they are founding members of the EU they are neighbours they are civil law countries and their legal systems are relatively similar at least compared to Scandinavian and common law jurisdictions Therefore the different reception EU non discrimination law cannot simply be explained by obvious differences between the legal systems Their comparison thus provides an interesting case study to uncover legal and non legal cultural and historic factors which influence the application of EU non discrimination law in both countries The book is of interest for EU comparative and equality lawyers

Justifying Strict Liability Marco Cappelletti, 2022 The imposition of strict liability in tort law is controversial and its theoretical foundations are the object of vigorous debate Why do or should we impose strict liability on employers for the torts committed by their employees or on a person for the harm caused by their children animals activities or things In responding to this type of questions legal actors rely on a wide variety of justifications Justifying Strict Liability explores in a comparative perspective the most significant arguments that are put forward to justify the imposition of strict liability in four legal systems two common law England and the United States and two civil law France and Italy These justifications include risk accident avoidance the deep pockets argument loss spreading victim protection reduction in administrative costs and individual responsibility By looking at how these arguments are used across the four legal systems this book considers a variety of patterns which characterise the reasoning on strict liability The book also assesses the justificatory weight of the arguments showing that these can assume varying significance in the four jurisdictions and that such variations reflect different views as to the values and goals which inspire strict liability and tort law more generally Overall the book seeks to improve our understanding of strict liability to shed light on the justifications for its imposition and to enhance our understanding of the different tort cultures featuring in the four legal systems studied **The**
