Introduction To Modern Philosophy Examining The Human Condition:

Introduction to Modern Philosophy Alburey Castell, Donald M. Borchert, Arthur Zucker, 2001 For introductory philosophy courses This popular introductory text reader on modern philosophy intersperses primary sources with commentary to keep students interested and critically engaged in what they are reading Each chapter deals with a fundamental question about human existence exploring the subject through representative readings by classic modern and contemporary philosophers with at least two contrasting perspectives for each main position **An Introduction to Modern Philosophy** Alburey Castell, Donald M. Borchert, 1976 **An Introduction to Modern Philosophy** Alburey Castell, Donald M. Borchert, 1988 **An Introduction to the Study of Social Philosophy** Rosita L. Navarro, 2001 **The Writer's Book of Memory** Janine Rider, 2013-11-05 Memory has long been ignored by rhetoricians because the written word has made memorization virtually obsolete Recently however as part of a revival of interest in classical rhetoric scholars have begun to realize that memory offers vast possibilities for today's writers Synthesizing research from rhetoric psychology philosophy and literary and composition studies this volume brings together many historical and contemporary theories of memory Yet its focus is clear memory is a generator of knowledge and a creative force which deserves attention at the beginning of and throughout the writing process This volume emphasizes the importance of recognizing memory's powers in an age in which mass media influence us all and electronic communication changes the way we think and write It also addresses the importance of the individual memory and voice in an age which promotes conformity Written in a strong lively personal manner the book covers a great deal of scholarly material It is never overbearing and the extensive bibliography offers rich vistas for further study **The Future of Reason, Science and Faith** J. Andrew Kirk, 2016-12-05 Focusing on the history of ideas this book explores important questions concerning knowledge in relation to philosophy science ethics and Christian faith Kirk contributes to the current debate about the intellectual basis and integrity of Western culture exploring controversial issues concerning the notions of modernity and post modernity Repositioning the Christian faith as a valid dialogue partner with contemporary secular movements in philosophy and ethics Kirk seeks to show that in post Christian Europe the Christian faith still possesses intellectual resources worthy to be reckoned with This book's principal argument is that contemporary Western society faces a cultural crisis It explores what appears to be an historical enigma namely the question of why Western intellectual endeavours in philosophy and science seem to have abandoned the search for a source of knowledge able to draw together disparate pieces of information provided by different disciplines Kirk draws conclusions particularly in the area of ethical decision making from this apparent failure and invites readers to consider Christian theism afresh as a means for the renewal of culture and society ***Embracing Epistemic Humility***, Donald Borchert, 2013-06-10 ***Embracing Epistemic Humility*** Confronting Triumphalism in Three Abrahamic Religions builds a case that encourages advocates of world views especially the children of Abraham Jews Christians and Muslims to embrace an attitude of

epistemic humility toward their world views and thereby defeat the triumphalism which on the contemporary scene has infected the world views of all too many in the Abrahamic tradition Triumphalists see their world view as the ultimate repository of spiritual truth all other world views are inferior and their adherents need to be converted forcefully or silenced or destroyed to prevent their cancerous views from metastasizing Embracing such epistemic humility is not only the antidote to triumphalism but it is also a powerful motivator to transform world view competitors into comrades engaged in a struggle to combat evil and to promote human flourishing
