**The Politics and Governance of Basic Education** Brian Levy, Robert Cameron, Ursula Hoadley, Vinothan Naidoo, 2018-08-24 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. All over the world economic inclusion has risen to the top of the development discourse. A well performing education system is central to achieving inclusive development but the challenge of improving educational outcomes has proven to be unexpectedly difficult. Access to education has increased but quality remains low with weaknesses in governance comprising an important part of the explanation. *The Politics and Governance of Basic Education* explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education. Using the vivid example of South Africa, a country that had ambitious goals at the outset of its transition from apartheid to democracy, it explores how the interaction of politics and institutions affects educational outcomes. By examining lessons learned from how South Africa failed to achieve many of its goals, it constructs an innovative alternative strategy for making progress combining practical steps to achieve incremental gains to re-orient the system towards learning. [The Wisden Guide to International Cricket 2014](#) Steven Lynch, 2014-07-08 *The Wisden Guide to International Cricket 2012* is a page per player guide to the world's top 200 cricketers, each with a photo, stats and written profile, plus country by country records. [Suid-Afrikaanse Hofverslae](#), 2014 [Human Rights and Equality in Education](#) Fredman, Sandra, Campbell, Meghan, 2018-06-20 Thousands of children from minority and disadvantaged groups will never cross the threshold of a classroom. What can human rights contribute to the struggle to ensure that every learner is able to access high quality education? This brilliant interdisciplinary collection explores how a human rights perspective offers new insights and tools into the current obstacles to education. It examines the role of private actors, the need to hold states to account for the quality of education, how to strike a balance between religion, culture and education, the innovative responses needed to guarantee girls' right to education and the role of courts. This unique book draws together contributors who have been deeply involved in this field from both developing and developed countries, which enriches the understanding and remedial approaches to tackle current obstacles to universal education.

*Assessment* Farzin Irani, 2022-02-27 *Cultural Diversity in Neuropsychological Assessment* provides a platform for clinical neuropsychologists, psychologists, and trainees to bridge cultures and speak to each other about the ethnically diverse communities they serve throughout the world. It allows readers to peek into their clinical filing cabinets and examine how they worked with diverse individuals from indigenous and migrant communities of Arab, Asian, European, Israeli, Latin American, and Caribbean, Persian, Russian, Sub-Saharan African, and North American origin. The book first reviews important foundations for working with diverse communities that include key knowledge, awareness, skills, and action orientation. It then provides a collection of cases for each cultural/geographic region. Each section begins with an introductory chapter to provide a bird's-eye view of the historical and current state of clinical and research practice of neuropsychology in that region. Then each chapter focuses on a specific community by providing surface and deep-level cultural background knowledge from the authors' unique perspectives. A case study is then covered in depth to practically showcase an evaluation with someone from that community. This is followed by a summary of key strategic points, lessons learned, references, further readings, and a glossary of culture-specific terminology used throughout the chapter. In the end, the appendix provides a list of culturally relevant tests and norms for some communities. This ground-breaking, peer-reviewed handbook provides an invaluable clinical resource for neuropsychologists, psychologists, and trainees. It increases self-reflection about multicultural awareness and knowledge, highlights practical ways to increase cultural understanding in neuropsychological and psychological assessments, and sparks further discussion for professional and personal growth in this area. **Paradise Lost**, 2022-06-13 *Paradise Lost: Race and Racism in Post-apartheid South Africa* is about the continuing salience of race and persistence of racism in post-apartheid South Africa. The chapters in the volume illustrate the multiple ways in which race and racism are manifested and propose various strategies to confront racial inequality, racism, and the power structure that underpins it while exploring how, through a renewed commitment to a non-racial society, apartheid racial categories can be put under erasure at exactly the time they are being reinforced. **Pharmacological and Non-Pharmacological Therapy for Obesity and Diabetes, volume II** Guilherme Zweig Rocha, Alexandre Gabarra Oliveira, Bruno Melo Carvalho, 2024-02-02 Given the success of the previous collection *Pharmacological and Non-Pharmacological Therapy for Obesity and Diabetes*, we are pleased to announce the launch of Volume II. Overweight and obesity are defined as abnormal or excessive fat accumulation that may induce inflammation and impair health, leading to metabolic syndrome and diabetes. Their prevalence is increasing and is considered a major public health concern in the 21st century. While numerous mechanisms have been proposed for this epidemic of obesity, it is well agreed upon that lack of physical activity and high-calorie intake play causal roles. Understanding the causes that lead to obesity and also its prevention or reversion are of public health priority. This could be managed by either modification of lifestyle through physical activity to restore energy balance or reduction of calorie intake, proper diet that is rich in fiber, increasing energy output, or using adequate medication.
