Monstrous Mothers: Troubling Tropes Andrea O'Reilly, Abigail L. Palko, 2021-08-01 Motherhood is one of those roles that assumes an almost outsized cultural importance in the significance we force it to bear It becomes both the source of and the repository for all kinds of cultural fears Its ubiquity perhaps makes it this perfect foil After all while not everyone will become a mother everyone has a mother When we force motherhood to bear the terrors of what it means to be human we inflict trauma upon those who mother A long tradition of bad mothers thus shapes contemporary mothering practices and the way we view them including the murderous Medea of Greek mythology the power hungry Queen Gertrude of Hamlet and the emasculating mother of Freud s theories Certainly there are mother who cause harm inflict abuse act monstrously Mothers are human But mothers are also a favourite and easy scapegoat The contributors to this collection explore a multitude of interdisciplinary representations of mothers that through their very depictions of bad mothering challenge the tropes of monstrous mothering that we lean on revealing in the process why we turn to them Chapters in *Monstrous Mothers* *Troubling Tropes* explore literary cinematic and real life monstrous mothers seeking to uncover social

sources and results of these monstrosities **Motherhood, Mental Illness and Recovery** Nikole Benders-Hadi, Mary E. Barber, 2014-08-01 Despite the importance of regaining social roles during recovery from mental illness the intersection between motherhood and serious mental illness is often overlooked This book aims to rectify that neglect A series of introductory chapters describing current research and services available to mothers with serious mental illness are followed by personal accounts of clients reflecting on their parenting experiences One goal of the book is to provide clinicians with information that they can use to help patients struggling with questions and barriers in their attempts to parent The inclusion of personal accounts of mothers on issues such as stigma fears and discrimination in the context of parenting with a mental illness is intended to promote the message of mental illness recovery to a larger audience as well Finally it is hoped that this handbook will help inspire more research on mothers with mental illness and the creation of more services tailored to their needs **Mothering without a Home** , Ann G. Smolen, 2013-10-29 Homeless women and their children who reside in a transitional housing facility or shelter have experienced multiple traumas and disruptions in their earliest attachments These multiple chronic traumas often result in disorganized attachment disorders which in turn affect all future development Although there are a dearth of programs and interventions that work with disorganized attachment disorder within the homeless population there are few studies that explore the difficulties that homeless mothers experience in forming positive attachments with their children *Mothering without a Home Attachment Representations and Behaviors of Homeless Mothers and Children* explores the attachment style of homeless mothers and its effect on the resulting attachment style of their children Ann Smolen utilizes psychoanalytically informed interventions with the goal of aiding these women in developing a deeper capacity to understand and be attuned to their children s emotional needs *Mothering from the Inside* Kelly Lockwood, 2020-09-16 The book takes a holistic approach to highlight and explore the range of issues specifically associated with mothering and imprisonment from sentencing through custody to resettlement and focusing on the perspective of mothers and their children *Modern Management of Perinatal Psychiatric Disorder* Carol Henshaw, John Lee Cox, Joanne Barton, 2009 This book provides both trainees in perinatal psychiatry and the generalist who wishes to know more with an up to date overview of the subject In addition it is a useful resource for other professionals working in the field such as nurses psychologists obstetricians midwives and health visitors The chapters address historical and classification issues the management of both new onset and existing mental disorders including substance misuse presenting in pregnancy and the postpartum period prescribing and physical treatments during pregnancy and breast feeding Also covered are issues for children and families screening for and prevention of mental disorders in relation to childbirth service provision and transcultural issues *Women Who Were Sexually Abused as Children* Teresa Gil, 2018-08-24 Stories of mothers who survived sexual abuse as children reveal the struggles challenges and triumphs of this special group of women Unraveling the veil of silence and capturing the experiences of mothers who were sexually abused as children this book offers a first step

in both supporting mothers and disrupting the cycle of intergenerational abuse that keeps these mothers isolated and alone in their mothering challenges and successes Each story reveals the concerns the needs the difficulties and the fears these mothers confront as they parent their children while struggling with their own past experiences By examining the therapeutic needs and concerns of mothers who have survived child sexual abuse Teresa Gil offers special insight into understanding and supporting these remarkable women At issue is understanding what helps women who were sexually abused as children to survive and to parent effectively Written for adult mothers who were victims of childhood sexual abuse as well as for helping professionals this book reveals the touching details of the pain and triumphs of mothering as a survivor and examines the protective factors that support resiliency and assist survivor mothers to overcome challenges and to provide safe environments for the next generation
