Irudaya Rajan, 2014-03-21 This volume is a collection of articles dealing with various dimensions of the Global Financial Crisis and its economic and social impact in terms of governance emigration remittances return migration and re integration The crisis

which had its origin in the United States in 2008 spread its economic effects on developed as well as developing countries. Some of these countries were able to recover in the short run while some are in the process of recovery with continuous efforts by both national governments and international agencies. In this backdrop is there any impact on the outflow of emigrants from the countries of origin and inflow of remittances to the countries of destination? The third volume in the annual series India Migration Report answers the question through rigorous quantitative and qualitative analyses and fieldwork both in the Gulf region and South Asia and concludes that both emigration and remittances are more resilient than expected. This report contains findings based on an extensive survey conducted in Kerala has additional evaluations based on other surveys and case studies conducted in different parts of India, Pakistan, Bangladesh, Nepal and Sri Lanka to reflect on the consequences of the global crisis on the countries of origin as well as a quick assessment and site visits to the United Arab Emirates, Kuwait, Qatar and Malaysia. It includes essays that examine the linkages between emigration and remittances based on international data from the World Bank, the International Labour Organization, the International Organization of Migration, the United Nations and other organizations that closely deal with international migration. It will be of interest to students and scholars of migration studies, sociology, law, economics, gender studies, diaspora studies, international relations and demography apart from non-governmental organizations, policy makers and government institutions working in the field of migration.

Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02

South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.

Criminality at Work Alan Bogg, Jennifer Collins, Mark Freedland, Jonathan Herring, 2020-03-12

From the Master and Servant legislation to the Factories Acts of the 19th century the criminal law has always had a vital yet normatively complex role in the regulation of work relations. Even in its earliest forms it operated both as a tool to repress collective organizations and enforce labour discipline while policing the worst excesses of industrial capitalism. Recently governments have begun to rediscover criminal law as a regulatory tool in a diverse set of areas related to labour law: modern slavery, penalizing irregular migrants, licensing regimes for labour market intermediaries, wage theft, supporting the enforcement of general labour standards, new forms of hybrid preventive orders, harassment at work and industrial protest. This volume explores the political and regulatory dimensions of

the new criminality at work from a wide range of disciplinary perspectives including labour law immigration law and health and safety regulations The volume provides an overview of the regulatory terrain of criminality at work exploring whether these different regulatory interventions represent politically legitimate uses of the criminal law The book also examines whether these recent interventions constitute a new pattern of criminalization that operates in preventive mode and is based upon character and risk based forms of culpability The volume concludes by reflecting upon the general themes of criminality at work comparatively from Australian Canadian and US perspectives Criminality at Work is a timely rich and ambitious piece of scholarship that examines the many intersections between criminal law and work relations from a historical and contemporary vantage point

Country reports on human rights practices Senate Committee on Foreign Relations and House Committee on Foreign Affairs,2013-02-20 The idea of human rights begins with a fundamental commitment to the dignity that is the birthright of every man woman and child Progress in advancing human rights begins with the facts And for the last 34 years the United States has produced the Country Reports on Human Rights Practices providing the most comprehensive record available of the condition of human rights around the world These reports are an essential tool for activists who courageously struggle to protect rights in communities around the world for journalists and scholars who document rights violations and who report on the work of those who champion the vulnerable and for governments including our own as they work to craft strategies to encourage protection of the human rights of more individuals in more places Joint Committee Print S Prt 112 40

Writing Home Glenn Morrison,2017-01-30 Writing Home explores the literary representation of Australian places by those who have walked them In particular it examines how Aboriginal and settler narratives of walking have shaped portrayals of Australia s Red Centre and consequently ideas of nation and belonging Central Australia has long been characterised as a frontier the supposed divide between black and white ancient and modern But persistently representing it in this way is preventing Australians from re imagining this internationally significant region as home Writing Home argues that the frontier no longer adequately

describes Central Australia and that the Aboriginal songlines make a significant but under acknowledged contribution to Australian discourses of hybridity belonging and home Drawing on anthropology cultural theory journalism politics and philosophy the book traces shifting perceptions of Australian place and space since precolonial times through six recounted walking journeys of the Red Centre

Adult Social Care Law in England John Williams, Gwyneth Roberts, Aled Griffiths, 2014-07-08 Social work law is at the foundation of all social work practice from shaping professional boundaries to determining the level of intervention Every case is complex and unique and therefore requires different legal treatment this means it is absolutely vital that social workers not only understand the law but are able to critically analyse the legal framework and apply it to their practice This book provides students and practitioners with an essential guide to adult social care law It lays out the key case law core legislation and the HSPCC standards as they apply to different areas of adult social care This includes issues of capacity making an assessment supporting carers and working with vulnerable adults Designed to support learning needs the book is packed with engaging case studies and reflective exercises as well as a legal toolbox to help simplify the legal jargon Whether you are a student or practitioner this is a practical accessible guide to competent and lawful practice in adult social care

Into Africa, Out of Academia Kwan Kew Lai, 2020-10-05 In 2006 Kwan Kew Lai left her full time position as a professor in the United States to provide medical humanitarian aid to the remote villages and the war torn areas of Africa This memoir follows her experiences from 2006 to 2013 as she provided care during

the HIV AIDs epidemics after natural disasters and as a relief doctor in refugee camps in Kenya Libya Uganda and in South Sudan where civil war virtually wiped out all existing healthcare facilities Throughout her memoir Lai recounts intimate encounters with refugees and internally displaced people in camps and in hospitals with limited resources telling tales of their resilience unflinching courage and survival through extreme hardship Her writing provides insight into communities and transports readers to heart aching beautiful parts of Africa not frequented by the usual travelers This is a deeply personal account of the huge disparities in the healthcare system of our global village and is a call to action for readers to understand the interconnectedness of the modern world the needs of less developed neighbors and the shortcomings of their healthcare systems

United States History - Part B , Language and Social Structure in Urban France David Hornsby,2017-07-05 The coming together of linguistics and sociology in the 1960 s most notably via the work of William Labov marked a revolution in the study of language and provided a paradigm for the understanding of variation and change Labovian quantitative methods have been employed successfully in North America the UK Scandinavia and New Zealand but have had surprisingly little resonance in France a country which poses many challenges to orthodox sociolinguistic thinking Why for example does a nation with unexceptional scores on income distribution and social mobility show an exceptionally high degree of linguistic levelling that is the elimination of marked regional or local speech forms And why does French appear to abound in hyperstyle variables which show greater variation on the stylistic than on the social dimension in defiance of a well established theory than such variables should not occur This volume brings together leading variationist sociolinguists and sociologists from both sides of the Channel to ask what makes France exceptional In addressing this question variationists have been forced to reassess the accepted interdisciplinary consensus and to ask as sociolinguistics has come of age whether concepts and definitions have been transposed in a way which meaningfully preserves their original sense and crucially takes account of recent developments in sociology Sociologists for their part have focused on the largely neglected area of language variation and its implications for social theory Their findings therefore transcend the case study of a particularly enigmatic country to raise important theoretical questions for both disciplines
