Korean International Students and the Making of Racialized Transnational Elites Sung-Choon Park,2020-01-31 By examining privileged and highly skilled Asian migrants such as international students who acquire legal permanent residency in the United States this book registers and traces these transnational figures as racialized transnational elites and illuminates the intersectionality and reconfiguration of race class ethnicity and nationality Using in depth interviews with Korean international students in New York City and Koreans in South Korea as a case study this book argues that racialized transnational elites are embedded in racial and ethnic dynamics in the United States as well as in class and nationalist conflicts with non migrant co ethnics in the sending country Sung Choon Park further argues that strategic responses to the local social dynamics shape transnational practices such as diaspora building transfer of knowledge conversion of cultural capital and cross border communication about race causing heterogeneous social consequences in both societies **Special Bibliographic Series** US Army Military History Research Collection,1970 **Special Bibliography - US Army Military History Research Collection** US Army Military History Research Collection,1970 **Resources in Education** ,2000-10

Army Regulations United States. Dept. of the Army, Early Study-Abroad and Identities Mun Woo Lee,2015-10-27 This book investigates how transnational English learning experiences can influence students identities More specifically it delineates how Korean early study abroad undergraduates perceive English and how they have formed their ethnic identities based on their early study abroad experiences They tend to see themselves in between two cultures languages and this in between ness is the most distinctive common characteristic of their identities However their in between ness means more than being connected to both Korea and America or hybridizing Korean and American discourses As transnational elites who cross the borders freely they are in a position to be cosmopolitans who can take advantage of the in between ness becoming keen critics of dominant cultures in both contexts and potentially social activists who can stand up for social justice In short the early study abroad experience should be understood not just in terms of language learning but as a process by means of which learners develop social awareness in multiple language related contexts that can lead them beyond their own circumscribed world of elitism to a position of responsibility for sharing what they have experienced and learned for the benefit of society Teaching English Language Learners Shelley Hong Xu,2010-01-15 Grounded in research and practical expertise this volume helps K 6 teachers skillfully support all of their English language learners ELLs from a single student to an entire classroom Ideas for teaching ELLs across different grade and proficiency levels include ways to link instruction to

students lived experiences use a variety of motivating print and electronic texts and materials engage families and conduct effective assessments Chapters are packed with tools and activities for promoting ELLs development in oral language phonics fluency vocabulary comprehension writing and grammar Handy reproducibles and Voice from the Classroom teacher vignettes enhance the utility of the book
