**Will Africa Feed China?** Deborah Brautigam, 2015-10-07 Is China building a new empire in rural Africa Over the past decade China's meteoric rise on the continent has raised a drumbeat of alarm China has 9 percent of the world's arable land 6 percent of its water and over 20 percent of its people Africa's savannahs and river basins host the planet's largest expanses of underutilized land and water Few topics are as controversial and emotionally charged as the belief that the Chinese government is aggressively buying up huge tracts of prime African land to grow food to ship back to China In Will Africa Feed China Deborah Brautigam one of the world's leading experts on China and Africa probes the myths and realities behind the media headlines Her careful research challenges the conventional wisdom as she shows Chinese farming investments are in fact surprisingly limited and land acquisitions modest Defying expectations China actually exports more

food to Africa than it imports Is this picture likely to change African governments are pushing hard for foreign capital and China is building a portfolio of tools to allow its agribusiness firms to go global International concerns about land grabbing are well justified Yet to feed its own growing population rural Africa must move from subsistence to commercial agriculture What role will China play Moving from the halls of power in Beijing to remote irrigated rice paddies of Africa Will Africa Feed China introduces the people and the politics that will shape the future of this engagement the state owned Chinese agribusiness firms that pioneered African farming in the 1960s and the entrepreneurial private investors who followed them Their fascinating stories and those of the African farmers and officials who are their counterparts ground Brautigam s deeply informative deftly balanced reporting Forcefully argued and empirically rich Will Africa Feed China will be a landmark work shedding new light on China s evolving global quest for food security and Africa s possibilities for structural transformation

geography introduced intensive cotton cultivation in Tajikistan at the expense of food crops Soviet economic planners felt that a region with hot climate and large water resources should not attempt to grow grains but cotton In the contemporary context this book focuses on how the state and international actors have responded to the food insecurity in Tajikistan Most importantly the book also analyses the relationship between food security and political stability in Tajikistan

**Extractive Industry Indigenisation in Zimbabwe** Kennedy Manduna,2025-09-25 This book explains how and why Zimbabwe s extractive industry Indigenisation over promised its benefits yet under delivered upon implementation This book traces the history of uneven development in Zimbabwe from the initial days of colonialism to the present using the extractive industry as the unit of analysis to carve out a granular and empirical analysis of the preponderance of transnational corporate control and ownership in the country Indigenisation of Zimbabwe s extractive industries was intended to address mining inequalities by transferring wealth from rich non Indigenous mining capital to disadvantaged Indigenous citizens and communities This policy however was a response to political economic and social crises posed by the international isolation of Zimbabwe s government following the controversial Fast Track Land Reform Programme in 2000 2003 An intervention therefore which promised to address inequalities has thus been hampered by corruption co optation and collusion which has led to it not only failing to address uneven development but in actual fact worsening the situation By examining the hidden structures and infrastructures of power capital and minerals and placing extractive industry Indigenisation in capitalism this book makes a crucial scholarly contribution to the renewed and burgeoning debates around the resurgence of resource nationalism in general and the struggle for economic sovereignty in particular This book steers readers more broadly to look for new and diversified ways of empowering Indigenous populations and their communities through mining Indigenisation in ways that do not threaten economic and political stability This book will be of great interest to students and scholars of the extractive industries natural resource management African politics and African development

**Military Review** ,2019 **Africa's Shadow Rise** Doctor Padraig Carmody,Peter Kragelund,Ricardo Reboredo,2020-09-17 For years economists have spoken of Africa rising and despite the global financial

crisis Africa continues to host some of the fastest growing economies in the world Africa's Shadow Rise however argues that the continent's apparent economic rise is essentially a mirage driven by developments elsewhere most particularly the expansion in China's economy While many African countries have experienced high rates of growth much of this growth may prove to be unsustainable and has contributed to environmental destruction and worsening inequality across the continent Similarly new economic relationships have produced new forms of dependency as African nations increasingly find themselves tied to the fortunes of China and other emerging powers Drawing on in depth fieldwork in southern Africa Africa's Shadow Rise reveals how the shifting balance of global power is transforming Africa's economy and politics and what this means for the future of development efforts in the region *International Policy Rules and Inequality* José Antonio

**the Law** Paul Behrens, 2016-05-05 Diplomatic interference carries considerable potential for disruption In this context diplomats have been accused of insulting behaviour the funding of political parties incitement to terrorism and even attempts to topple the host government Reactions can be harsh expulsions are common and occasionally diplomatic relations are severed altogether But an evaluation under international law faces challenges Often enough charges of interference are made when legitimate interests are involved for instance when diplomats criticise the human rights record of their hosts In such cases diplomats may be able to invoke grounds which are recognised under international law On the basis of more than 300 cases of alleged diplomatic interference and the practice of about 100 States and territories Diplomatic Interference and the Law provides an examination of the main areas in which charges of meddling have arisen such as lobbying activities contacts with the opposition propaganda the use of threats and insults and the granting of asylum It analyses situations in which the sovereignty of the receiving State meets competing interests and offers solutions which avoid a conflict of norms It concludes with useful advice for foreign offices and diplomatic agents and underlines the most efficient ways of dealing with
