**Reimagining Delilah's Afterlives as Femme Fatale** Caroline Blyth, 2017-10-05 The story of Samson and Delilah in Judges 16 has been studied and retold over the centuries by biblical interpreters artists musicians filmmakers and writers Within these scholarly and cultural retellings Delilah is frequently fashioned as the quintessential femme fatale the shamelessly seductive fatal woman whose sexual treachery ultimately leads to Samson's downfall Yet these ubiquitous portrayals of Delilah as femme fatale tend to eclipse the many other viable readings of her character that lie underexplored within the ambiguity laden narrative of Judges 16 interpretations that offer alternative and more sympathetic portrayals of her biblical persona In *Reimagining Delilah's Afterlives as Femme Fatale* Caroline Blyth guides readers through an in depth exploration of Delilah's afterlives as femme fatale in both biblical interpretation and popular culture tracing the social and historical factors that may have inspired them She then considers alternative afterlives for Delilah's character using as inspiration both the Judges 16 narrative and a number of cultural texts which deconstruct traditional understandings of the femme fatale thereby inviting readers to view this iconic biblical character in new and fascinating lights **Semiotics**

Roland Posner, Klaus Robering, Thomas Albert Sebeok, 1997 This series of HANDBOOKS OF LINGUISTICS AND COMMUNICATION SCIENCE is designed to illuminate a field which not only includes general linguistics and the study of linguistics as applied to specific languages but also covers those more recent areas which have developed from the increasing body of research into the manifold forms of communicative action and interaction For classic linguistics there appears to be a need for a review of the state of the art which will provide a reference base for the rapid advances in research undertaken from a variety of theoretical standpoints while in the more recent branches of communication science the handbooks will give researchers both an overview and orientation To attain these objectives the series will aim for a standard comparable to that of the leading handbooks in other disciplines and to this end will strive for comprehensiveness theoretical explicitness reliable documentation of data and findings and up to date methodology The editors both of the series and of the individual volumes and the individual contributors are committed to this aim The languages of publication are English German and French The main aim of the series is to provide an appropriate account of the state of the art in the various areas of linguistics and communication science covered by each of the various handbooks however no inflexible pre set limits will be imposed on the scope of each volume The series is open ended and can thus take account of further

developments in the field This conception coupled with the necessity of allowing adequate time for each volume to be prepared with the necessary care means that there is no set time table for the publication of the whole series Each volume will be a self contained work complete in itself The order in which the handbooks are published does not imply any rank ordering but is determined by the way in which the series is organized the editor of the whole series enlist a competent editor for each individual volume Once the principal editor for a volume has been found he or she then has a completely free hand in the choice of co editors and contributors The editors plan each volume independently of the others being governed only by general formal principles The series editor only intervene where questions of delineation between individual volumes are concerned It is felt that this *modus operandi* is best suited to achieving the objectives of the series namely to give a competent account of the present state of knowledge and of the perception of the problems in the area covered by each volume

**Arab Brazil** Wail S. Hassan, 2024 Until recently Arab Brazilian relations have been largely invisible to area studies and Comparative Literature scholarship Yet Arabs have left a permanent imprint on Brazil from the Moorish legacy of Muslim Iberia transmitted by Portuguese settlers to waves of Arab immigrants since the late nineteenth century to the prominence today of Brazilians of Arab descent in politics the economy literature and culture The first book of its kind *Arab Brazil Fictions of Tertiary Orientalism* argues that representations of Arab and Muslim immigrants in Brazilian literature and popular culture since the early twentieth century reveal anxieties and contradictions in the country's ideologies of national identity Author Wail S Hassan analyzes those representations in a century of Brazilian novels short stories and telenovelas to show how the Arab East works paradoxically as a site of otherness different language culture and religion and solidarity cultural historical demographic and geopolitical ties What explains this contradiction argues Hassan is a Brazilian variety of Orientalism distinct from the British French and U S varieties analyzed by Edward Said that problematizes the idealized image of Brazil as a country built on *mistura* ethnic and racial mixing and cultural anthropophagy or the digestion and incorporation of diverse cultural influences

*"Truth Behind Bars"* Paul Kellogg, 2021-11-05 Just north of the Arctic Circle is the settlement of Vorkuta a notorious camp in the Gulag internment system that witnessed three pivotal moments in Russian history In the 1930s a desperate hunger strike by socialist prisoners victims of Joseph Stalin's repressive regime resulted in mass executions In 1953 a strike by forced labourers sounded the death knell for the Stalinist forced labour system And finally in the late 1980s and early 1990s a series of strikes by new independent miners unions were central to overturning the Stalinist system Paul Kellogg uses the story of Vorkuta as a frame with which to re assess the Russian Revolution In particular he turns to the contributions of Iulii Martov a contemporary of Lenin and his analysis of the central role played in the revolution by a temporary class of peasants in uniform Kellogg explores the persistence and creativity of workers resistance in even the darkest hours of authoritarian repression and offers

new perspectives on the failure of democratic governance after the Russian Revolution      **Swahili Tales, as told by natives of Zanzibar. With an English translation. Gruenler,2017-04-30 In this book Curtis Gruenler proposes that the concept of the enigmatic latent in a wide range of medieval thinking about literature can help us better understand in medieval terms much of the era's most enduring literature from the riddles of the Anglo Saxon bishop Aldhelm to the great vernacular works of Dante Chaucer Julian of Norwich and above all Langland's Piers Plowman Riddles rhetoric and theology the three fields of meaning of aenigma in medieval Latin map a way of thinking about reading and writing obscure literature that was widely shared across the Middle Ages The poetics of enigma links inquiry about

language by theologians with theologically ambitious literature Each sense of enigma brings out an aspect of this poetics The playfulness of riddling both oral and literate was joined to a Christian vision of literature by Aldhelm and the Old English riddles of the Exeter Book Defined in rhetoric as an obscure allegory enigma was condemned by classical authorities but resurrected under the influence of Augustine as an aid to contemplation Its theological significance follows from a favorite biblical verse among medieval theologians We see now through a mirror in an enigma then face to face 1 Cor 13 12 Along with other examples of the poetics of enigma Piers Plowman can be seen as a culmination of centuries of reflection on the importance of obscure language for knowing and participating in endless mysteries of divinity and humanity and a bridge to the importance of the enigmatic in modern literature This book will be especially useful for scholars and undergraduate students interested in medieval European literature literary theory and contemplative theology Biographical Dictionary of Twentieth-Century Philosophers Stuart Brown, Diane Collinson, Robert Wilkinson, 2012-09-10 This Biographical Dictionary provides detailed accounts of the lives works influence and reception of thinkers from all the major philosophical schools and traditions of the twentieth century This unique volume covers the lives and careers of thinkers from all areas of philosophy from analytic philosophy to Zen and from formal logic to aesthetics All the major figures of philosophy such as Nietzsche Wittgenstein and Russell are examined and analysed The scope of the work is not merely restricted to the major figures in western philosophy but also covers in depth a significant number of thinkers from the near and far east and from the non European Hispanic language communities The Biographical Dictionary also includes a number of general entries dealing with important schools of philosophy such as the Vienna Circle or currents of thought such as vitalism These allow the reader to set the individual biographies in the context of the philosophical history of the period With entries written by over 100 leading philosophy scholars the Biographical Dictionary is the most comprehensive survey of twentieth century thinkers to date Structure The book is structured alphabetically by philosopher Each entry is identically structured for ease of access and covers nationality dates and places of birth and death philosophical style or school areas of interest higher education significant influences main appointments main publications secondary literature account of intellectual development and main ideas critical reception and impact At the end of the book a glossary gives accounts of the schools movements and traditions to which these philosophers belonged and thorough indexes enable the reader to access the information in several ways by nationality by major areas of contribution to philosophy e g aesthetics by major influences on the thinker concerned e g Plato Kant Wittgenstein The Academy and Literature ,1904 **Academy; a Weekly Review of Literature, Learning, Science and Art** ,1895 The Poetical gazette the official organ of the Poetry society and a review of poetical affairs nos 4 7 issued as supplements to the Academy v 79 Oct 15 Nov 5 Dec 3 and 31 1910
