*Tobacco and Health* K. Slama,2012-12-06 Over 1 100 delegates from a hundred countries attended the 9th World Conference on Tobacco and Health After five days of debate several important resolutions were adopted unanimously and will be landmarks in the fight against tobacco This great success is due to three facts which emerged from the discussions 1 It appears clearly now that the risks associated with tobacco are much greater than previously assumed Out of two regular smokers one will die from a tobacco related disease 2 Reducing tobacco consumption can be achieved but the data collected in several countries show that it requires a global strategy This strategy was much debated during the conference

The resolutions adopted emphasize the agreement of the delegates on the main points Action to fight the growing epidemic of tobacco attributable disease and death involves convincing the general public the medical community and decision makers of the need to act for tobacco control The most efficient tools for helping individuals never to start or successfully to stop using tobacco should be developed effective tobacco control endeavors are required to counteract the actions of the powerful and influential tobacco manufacturers With the help and under the aegis of WHO DICC IUATLD ISFC IOCD and IUHPE an international alliance for health and against tobacco should unite all those who are engaged in this fight
