Install the Ink Cartridges

Follow these ink cartridge precautions:

- Install both ink cartridges, and leave them installed for all types of printing, or the printer won't work.
- Remove the yellow tape seal from the top of the ink cartridges or you'll permanently damage them. Don't remove the clear seals on the bottom or ink will leak out.
- Don't open an ink cartridge clamp to remove a cartridge except to replace it with a new one.
- Once you remove a cartridge, you can't reuse it, even if it contains ink.
- Never turn off the printer when the power light is flashing, unless the printer hasn't moved or made any noise for more than 5 minutes.

Keep ink cartridges out of the reach of children.

If ink gets on your hands, wash them thoroughly with soap and water.

If ink gets in your eyes, flush them immediately with water.

- 1 Lower the output tray and open the cover.

- 3 Unwrap the ink cartridges, then remove only the yellow part of the tape seal on top. Don't pull off the blue part.

color ink cartridge

- 4 Insert both ink cartridges with the labels facing up as shown. Press down the clamps until they lock into place, but don't press down on the ink cartridges themselves.

- 5 Press the cleaning button and close the printer cover.

Ink charging takes about two minutes, with the power light flashing and the printer making noise until it's finished.

Don't turn off the printer or interrupt charging or it will start over, using more ink than necessary. It's finished when the power light stops flashing.

Put in Paper

You can load a stack of plain paper or special ink jet paper. See the Printer Basics book for special paper loading steps.

- 1 Pull out the output tray extensions. Slide the left edge guide so it's slightly wider than your paper.

- 2 Load paper against the right edge guide, then slide the left edge guide against it.

Don't load paper above this arrow
