took over the responsibility for this conference but there are three national interest groups that sent delegates to the steering committee and support its activities especially by promoting the conference materials. As can be seen from these materials they are the SEE Working Group Dependable Computing which is a successor organization of AFCET in France, the GI ITG GMATechnical Committee on Dependability and Fault Tolerance in Germany and the AICA Working Group Dependability of Computer Systems in Italy. In addition, committees of several global professional organizations such as IEEE and IFIP support this conference. Prague has been selected as a conference venue for several reasons. It is an easily accessible location that may attract many visitors by its beauty and that has a tradition in organizing international events of this kind. One of the last FTSD conferences took place here. Flying Magazine, 1997-10. *Gale's Auto Sourcebook 2* Karen Hill, 1992-05.
