First Aid Manual Baby Child:

First Year First Aid Michelle Fiddian, 2015-01-05 An empowering book for all new and expecting parents covering emergency first aid in the first year of life. It gives easy to follow tips to remember for most accidents as well as illnesses so parents can be prepared for the most common emergencies that occur within the home. This book is an essential tool for every responsible parent. Knowing what to do in an emergency is a frightening topic but this book is not scary. It will dispel myths and enlighten. This book is designed with parents in mind, written by a parent who has a background in extensive first aid training and first hand experience as a mother. The anecdotes, quotes and practical advice written in a light manner will make this book a pleasure to read and the perfect gift. Michelle Fiddian has 13 years of industry experience, 6 years as a call taker at the Triple Zero 000 Ambulance Service, 2 years as a first aid trainer for major organisations such as St John Ambulance and 5 years running Little Aid since she started it in 2008. Michelle's previous experiences highlighted two problems: 1 even when first aid trained people often don't know how to deal with a paediatric situation. The most hysterical calls she received through Triple Zero were from parents of little ones. They were losing control and feeling helpless at a time that their child needed them most. 2 The first aid training available wasn't relevant to babies and children. Michelle started Little Aid first aid courses to address these problems and the training focus has three key elements: empowerment, flexibility and fun. First Year First Aid has been written to accompany quality first aid training and has exactly the same focus. **First Aid Fast for Babies and Children** DK, 2017-06-20 Do you know what to do if your baby or child falls and cuts their arm?
