the World Kathleen Kesson, 2024-08-01 *Becoming One With the World* A Guide to Neohumanist Education responds to an urgent need to reconceptualize the fundamentals of education in light of the many social ecological and political challenges facing humanity today It answers the call for a new educational paradigm one based on a far richer more insightful understanding of human possibility one that decenters human exceptionalism in favor of a new ecological consciousness one that promotes harmony and cooperation between humans and non human others and one that cultivates wisdom Neohumanist education strives for a harmonious balance between spiritual development and critical engagement with the world in the belief that an awakened conscience translates into transcending differences and creating a sense of unity with all beings The book is designed to enhance the spiritual and pedagogical knowledge and skill of teachers parents and school leaders who are seeking more holistic approaches to educating young people Both richly theoretical and eminently practical the book applies the primary commitments of Neohumanist education cultivating love and kinship with humans and non human others freeing the mind from dogma and limitations fostering a balanced approach between inquiry into the outer objective world s and the inner subjective world s and awakening the desire for social and environmental justice to the full spectrum of traditional subject matter It draws upon a wide range of new research and scholarship to illustrate an educational model capable of maximizing human potential and inspiring young people to create a future that is just joyful and sustainable
